House to House Feb 09 2021 On 8 November

2004, the largest battle of the War on Terror began, with the US Army's assault on Fallujah and its network of tens of thousands of insurgents hiding in fortified bunkers, on rooftops, and inside booby-trapped houses. For Sgt. David Bellavia of 3rd Platoon, Alpha Company, it quickly turned into a battle on foot, from street to street and house to house. On the second day, he and his men laid siege to a mosque, only to be driven to a rooftop and surrounded, before heavy artillery could smash through to rescue them. By the third day, Bellavia charges an insurgent-filled house and finds himself trapped with six enemy fighters. One by one, he shoots, wrestles, stabs, and kills five of them, until his men arrive to take care of the final target. It is one of the most hair-raising battle stories of any age -- yet it does not spell the end of Bellavia's service. It would take several more weeks before the Battle of Fallujah finally came to a close, with Bellavia, miraculously, alive. In the words of the author:

"HOUSE TO HOUSE holds nothing back. It is a raw, gritty look at killing and combat and how men react to it. It is gut-wrenching, shocking and brutal. It is honest. It is not a glorification of war. Yet it will not shy from acknowledging this: sometimes it takes something as terrible as war for the full beauty of the human spirit to emerge."

The Black Jacobins Mar 10 2021 In 1789 the West Indian colony of San Domingo supplied two-thirds of the overseas trade of France. The entire structure of what was arguably the most profitable colony in the world rested on the labour of half a million slaves. In 1791 the waves of unrest inspired by the French Revolution reached across the Atlantic dividing the loyalties of the white population of the island. The brutally treated slaves of Saint Domingo seized at this confusion and rose up in rebellion against masters. In this classic work, CLR James chronicles the only successful slave revolt in history and provides a critical portrait of their

leader, Toussaint L'Ouverture, 'one of the most remarkable men of a period rich in remarkable men'.

Susan Marcus Bends the Rules Nov 18 2021

You wouldn't even know there was a war on, thinks Susan Marcus as she surveys her new neighborhood in Clayton, Missouri. There are no air raid wardens, no blackout curtains. It's so different from her old home in New York City: no tall apartment buildings, no bustling city streets. Susan can barely understand people, their accents are so thick, and of course everyone in Clayton is a St. Louis Cardinals fan and sworn enemy of Susan's beloved New York Yankees. Worst of all, for the first time in her life, ten-year-old Susan encounters prejudice -- against New Yorkers, Jews, blacks, and the Japanese. She must be circumspect about her friendship with Loretta (the daughter of the black janitor), for Jim Crow laws still exist in 1943 Missouri. Outraged, Susan decides to strike a blow against them. She's not going to break the rules exactly;

Familiar Stranger Jul 14 2021 "Sometimes I feel myself to have been the last colonial." This, in his own words, is the extraordinary story of the life and career of Stuart Hall—how his experiences shaped his intellectual, political, and theoretical work and how he became one of his age's brightest intellectual lights. Growing up in a middle-class family in 1930s Kingston, Jamaica, still then a British colony, the young Stuart Hall found himself uncomfortable in his own home. He lived among Kingston's stiflingly respectable brown middle class, who, in their habits and ambitions, measured themselves against the white elite. As colonial rule was challenged, things began to change in Kingston and across the world. In 1951 a Rhodes scholarship took Hall across the Atlantic to Oxford University, where he met young Jamaicans from all walks of life, as well as writers and thinkers from across the Caribbean, including V. S. Naipaul and George Lamming. While at Oxford he met Raymond Williams,

Charles Taylor, and other leading intellectuals, with whom he helped found the intellectual and political movement known as the New Left. With the emotional aftershock of colonialism still pulsing through him, Hall faced a new struggle: that of building a home, a life, and an identity in a postwar England so rife with racism that it could barely recognize his humanity. With great insight, compassion, and wit, Hall tells the story of his early life, taking readers on a journey through the sights, smells, and streets of 1930s Kingston while reflecting on the thorny politics of 1950s and 1960s Britain. Full of passion and wisdom, *Familiar Stranger* is the intellectual memoir of one of our greatest minds.

The contributors discuss ways in which history teaching has acted as a political tool that has, at times, been guilty of exacerbating inter-group conflicts. It also highlights history teaching as an important component of reconciliation attempts, showcasing examples of curricular reform and textbook revision after conflict, and discussing how the contestations and difficulties surrounding such processes were addressed in different post-conflict societies.

considers indigenous peoples' struggles for human rights, anxieties about anthropocentric mastery of nature, neoliberal statecraft, and entrepreneurialism of the self. The book focuses on four domains - shamanism, indigenism, environmentalism and neoliberalism - in terms of interrelated historical processes and overlapping discourses. In doing so, it engages with shamanism's manifold meanings in a world increasingly sensitive to indigenous peoples' practices of territoriality, increasingly concerned about humans' integral relationship with natural environments, and increasingly encouraged and coerced to adjust self-conduct to comport with and augment government conduct.

over many decades. But more than simply telling the story of her role as a local leader or a bridge between local and national arenas of activism, Nancy A. Hewitt argues that Post's radical vision offers a critical perspective on current conceptualizations of social activism in the nineteenth century. While some individual radicals in this period have received contemporary attention—most notably William Lloyd Garrison, Frederick Douglass, and Lucretia Mott (all of whom were friends of Post)—the existence of an extensive network of radical activists bound together across eight decades by ties of family, friendship, and faith has been largely ignored. In this in-depth biography of Post, Hewitt demonstrates a vibrant radical tradition of social justice that sought to transform the nation.
