Highlander Nov 01 2022 and racial justice during a critical era in southern and Appalachian history. This volume is the first comprehensive examination of that extraordinary—and often controversial—institution. Founded in 1932 by Myles Horton and Don West near Monteagle, Tennessee, this adult education center was both a vital resource for southern radicals and a catalyst for several major movements for social change. During its thirty-year history it served as a community folk school, as a training center for southern labor and Farmers' Union members, and as a meeting place for black and white civil rights activists. As a result of the civil rights involvement, the state of Tennessee revoked the charter of the original institution in 1962. At the heart of Horton's philosophy and the Highlander program was a belief in the power of education to effect profound changes in society. By working with the knowledge the poor of Appalachia and the South had gained from their

experiences, Horton and his staff expected to enable them to take control of their own lives and to solve their own problems. John M. Glen's authoritative study is more than the story of a singular school in Tennessee. It is a biography of Myles Horton, co-founder and long-time educational director of the school, whose social theories shaped its character. It is an analysis of the application of a particular idea of adult education to the problems of the South and of Appalachia. And it affords valuable insights into the history of the southern labor and the civil rights movements and of the individuals and institutions involved in them over the past five decades.

Boundary-Layer Meteorology 25th Anniversary Volume, 1970-1995 Apr 25 2022 The journal *Boundary-Layer Meteorology* was started in 1970 and has become the premier vehicle for the publication of research papers in its field. Dr R.E. Munn served as Editor-in-Chief until recently. The special 25th Anniversary volume,

on which this book is based, was compiled from review and other articles solicited and selected as a 'Festschrift' to honour Ted Munn's achievement as editor of the journal over that time. Articles by leading contributors to the field include reviews of field studies (Askervein, HEXOS, Cabauw) and their impacts; numerical modelling (large-eddy simulation of the surface layer, frontal structures); analyses and critical discussions (of the von Karman constant, bulk aerodynamic formulations, air-sea interaction, vegetation canopies); and reviews or previews of progress in our understanding of the atmospheric boundary layer, turbulence simulation, Lagrangian descriptions of turbulent diffusion and remote sensing of the boundary layer. The collection provides an excellent perspective on the state of the subject and where it is headed. It should provide fascinating and stimulating reading for researchers and students of boundary-layer meteorology and related areas.

Henry Cowell May 15 2021 Joel Sachs offers the first complete biography of one of the most influential figures in twentieth-century American music. Henry Cowell, a major musical innovator of the first half of the century, left a rich body of compositions spanning a wide range of styles.

But as Sachs shows, Cowell's legacy extends far beyond his music. He worked tirelessly to create organizations such as the highly influential New Music Quarterly, New Music Recordings, and

the Pan-American Association of Composers, through which great talents like Ruth Crawford Seeger and Charles Ives first became known in the US and abroad. As one of the first Western advocates for World Music, he used lectures, articles, and recordings to bring other musical cultures to myriad listeners and students including John Cage and Lou Harrison, who attributed their life work to Cowell's influence. Finally, Sachs describes the tragedy of Cowell's life, being sentenced to fifteen years in San Quentin -- of which he served four -- after pleading guilty to a morals charge that even the prosecutor felt was trivial. Providing a wealth of insight into Cowell's ideas and philosophy, Joel Sachs lays out a much-needed perspective on one of the giants of twentieth-century American music.

In *The Art of Pixar Short Films*, animation expert and short film devotee *Amid Amidi* shines a spotlight on these and many more memorable vignettes from the Pixar archive. The book is thoroughly illustrated and updated with a new dialogue between Becker and

eminent French sociologist Alain Pessin about the extended social system in which art is created, and with a new preface in which the author talks about his own process in creating this influential work.

The Keeping Quilt and The Blessing Cup eBook Set Jan 23 2022 Two beloved and bestselling classics from Patricia Polacco, now available in one eBook set. The Keeping Quilt "We will make a quilt to help us always remember home," Anna's mother said. "It will be like having the family in backhome Russia dance around us at night." And so it was. From a basket of old clothes, Anna's babushka, Uncle Vladimir's shirt, Aunt Havalah's nightdress, and an apron of Aunt Natasha's become The Keeping Quilt, passed along from mother to daughter for almost a century. For four generations the quilt is a Sabbath tablecloth, a wedding canopy, and a blanket that welcomes babies warmly into the world. In strongly moving pictures that are as heartwarming as they are real, Patricia Polacco

tells the story of her own family and the quilt's further story that remains a symbol of their enduring love and faith. This anniversary edition includes fifteen pages of original material describing the quilt's journey and its home at the Mazza Museum in Findley, Ohio. The Blessing Cup As a young Russian Jewish girl in the early 1900s, Anna and her family lived in fear of the Czar's soldiers. The family lived a hard life and had few possessions—their treasure was a beautiful china tea set. A wedding gift to Anna's parents, the tea set came with a wish that "Anyone who drinks from this will have blessings from God. They will never know a day of hunger. Their lives will always have flavor. They will know love and joy and they will never be poor." When Anna's family leaves Russia for America, they bring the tea set and its blessings. A source of heritage and security, the tea set helps Anna's family make friends and find better lives in America. A cup from the tea set—The Blessing Cup—became an anchor of family history, and it

Making Color Sing, Jeanne Dobie teaches you new ways to think about color and make it work for you, through 31 clear, easy-to-follow exercises. No color exists in isolation; colors are always interacting with one another. As this nationally recognized author explains, understanding color relationships is the key to successful painting. Do you know how to use the push and pull of warm and cool colors to create a feeling of space? Can you generate exciting vibrations through the interplay of complements? Have you ever considered disguising one color in a scene to accent another color? All these possibilities—and more—are discussed and clarified with illustrations. The lessons on color lead into another essential painting consideration: composition and design. Painting is much more than copying what you see. It involves finding a structure that allows you to organize and thus communicate your impressions and reactions. Dobie encourages artists to experiment with different

arrangements of shapes and values to build a dynamic foundation in their paintings. This manual stimulates new ways to think about colour, generating responses that unlock personal creativity and allow artists to express themselves with paint.
