[The Burning Air](#) Mar 09 2021 'A gripping tale of secrets, revenge and obsession, masterfully done.' Guardian 'I really loved it - couldn't put it down!' Sophie Hannah 'Everything you want from a psychological thriller' Good Housekeeping Gripping and chilling, with a killer twist, THE BURNING AIR proves that Erin Kelly is one of Britain's best suspense writers. Of course it was love for my children, love for my son, that caused me to act as I did. It was a lapse of judgement. If I could have foreseen the rippling aftershocks that followed I would have acted differently, but by the time I realised the extent of the consequences, it was too late. The MacBrides have always gone to Far Barn in Devon for Bonfire Night, but this year everything is different. Lydia, the matriarch, is dead; Sophie, the eldest daughter, is desperately trying to repair a crumbling marriage; and Felix, the youngest of the family, has brought a girlfriend with him for the first time. The girl, Kerry, seems odd in a way nobody can quite put their finger on - but when they leave her looking after Sophie's baby daughter, and return to find both Kerry and the baby gone, they are forced to ask themselves if they have allowed a cuckoo into their nest . . . See what readers are saying about this brilliant book 'A firecracker of a book' Amazon reviewer 'The book was well written, well plotted and utterly absorbing. Highly recommend!' Goodreads reviewer 'This was a riveting read.' Amazon reviewer 'This was the first novel of Erin Kelly's that I have read and all I can say is that I am stunned at her brilliance' Goodreads reviewer 'Tautly plotted, well written and as ever, killer twists throughout. Highly recommend.' Amazon reviewer STONE MOTHERS, the new novel by Erin Kelly, is available to buy now!

[How to Read the Air](#) Jan 07 2021 A powerful and moving summer read that explores love, grief and the reality of the contemporary American immigrant experience Jonas, fresh from a failed marriage, is desperate to make sense of the ties that have forged him. How can he dream of a future when he can't make sense of his past? He hits the road, tracing the route that his parents - young Ethiopians in search of an identity as an American couple - took thirty years earlier to Nashville, Tennessee. In a stunning display of imagination he weaves together a history that takes him from the war-torn Ethiopia of his parents' youth to a brighter vision of his own life in contemporary America, a story - real or invented- that holds the possibility of reconciliation and redemption. 'A story of exile and redemption, beautifully written' The Times

[The Court of the Air](#) Apr 22 2022 A hugely engaging adventure set in a Victorian-style world – a fantastical version of Dickens – that will appeal to fans of Susanna Clarke and Philip Pullman. Two orphans are more than they seem. And one megalomaniac will stop at nothing to find them...

[Hot Air](#) May 23 2022 SHORTLISTED FOR THE RSL CHRISTOPHER BLAND PRIZE 2022 Ours is the age of global warming. Rising sea levels, extreme weather, forest fires. Dire warnings are everywhere, so why has it taken so long for the crisis to be recognised? Here, for the first time, climate scientist Peter Stott reveals the bitter fight to get international recognition for what, among scientists, has been known for decades: human activity causes climate change. Across continents and against the efforts of sceptical governments, prominent climate change deniers and shadowy lobbyists, Hot Air is the urgent story of how the science was developed, how it has been repeatedly sabotaged and why humanity hasn't a second to spare in the fight to halt climate change.

[Desiccant Heating, Ventilating, and Air-Conditioning Systems](#) Jan 27 2020 This book presents the necessary fundamental knowledge in the research, development, design, selection, and application of desiccant heating, ventilating, and air-conditioning systems. It covers the established installations in different climatic conditions and building types. In addition, advanced performance evaluation techniques are presented, covering thermodynamic, economic, and environmental aspects. Hence, the book is an important resource for undergraduate and graduate students, design and installation engineers, researchers and scientists, building owners and occupants, and energy and environmental policy makers.

[OECD Environmental Performance Reviews: China 2007](#) Dec 26 2019 OECD's first review of China's environmental situation and policies systematically reviews issues including air, water, waste, and biodiversity; examines the environment-economic and environmental-social policy interfaces; and makes a series of recommendations.

[The Schneider Trophy Air Races](#) Nov 17 2021 The history of the Schneider Trophy is the history of aircraft development. When Jacques Schneider devised and inaugurated the Coupe d' Aviation Maritime race for seaplanes in 1913, no-one could have predicted the profound effect the Series would have on aircraft design and aeronautical development, not to mention world history. Howard Pixton's 1914 victory in a Sopwith Tabloid biplane surprisingly surpassed the performance of monoplanes and other manufacturers turned back to biplanes. During The Great War aerial combat was almost entirely conducted by biplanes, with their low landing speeds, rapid climb rates and maneuverability. Post-war the Races resumed in 1920. The American Curtiss racing aircraft set the pattern for the 1920s, making way for Harold Mitchell's Supermarines in the 1930's. Having won the 1927 race at Venice Mitchell developed his ground-breaking aircraft into the iconic Spitfire powered by the Rolls-Royce Merlin engine. This new generation of British fighter aircraft were to play a decisive role in defeating the Luftwaffe and thwarting the Nazis' invasion plans. This is a fascinating account of the air race series that had a huge influence on the development of flight.

**Invisible as Air** Oct 24 2019 Winner of the 2020 Georgia Author of the Year Award! One of Booklist's Top 10 Books of the Year! A provocative and timely new novel by the author of *Inheriting Edith*, one that will haunt you long after the final page is turned... Sylvie Snow knows the pressures of expectations: a woman is supposed to work hard, but never be tired; age gracefully, but always be beautiful; fix the family problems, but always be carefree. Sylvie does the grocery shopping, the laundry, the scheduling, the schlepping and the PTA-ing, while planning her son's Bar Mitzvah and cheerfully tending her husband, Paul, who's been lying on the sofa with a broken ankle. She's also secretly addicted to the Oxycontin intended for her husband. For three years, Sylvie has repressed her grief about the heartbreaking stillbirth of her newborn daughter, Delilah. On the morning of the anniversary of her death, when she just can't face doing one...more...thing: she takes one—just one—of her husband's discarded pain pills. And suddenly she feels patient, kinder, and miraculously relaxed. She tells herself that the pills are temporary, just a gift, and that when the supply runs out she'll go back to her regularly scheduled programming. But days turn into weeks, and Sylvie slips slowly into a nightmare. At first, Paul and Teddy are completely unaware, but this changes quickly as her desperate choices reveal her desperate state. As the Bar Mitzvah nears, all three of them must face the void within themselves, both alone and together.

**The Color of Air** Jul 21 2019 PARADE's Best Books to Read this Summer "A rich historical novel that illustrates why connection is more important and more vital than ever." -New York Times bestselling author Lisa See Daniel Abe, a young doctor in Chicago, is finally coming back to Hawai'i. He has his own reason for returning to his childhood home, but it is not to revisit the past, unlike his Uncle Koji. Koji lives with the memories of Daniel's mother, Mariko, the love of his life, and the scars of a life hard-lived. He can't wait to see Daniel, who he's always thought of as a son, but he knows the time has come to tell him the truth about his mother, and his father. But Daniel's arrival coincides with the awakening of the Mauna Loa volcano, and its dangerous path toward their village stirs both new and long ago passions in their community. Alternating between past and present—from the day of the volcano eruption in 1935 to decades prior—*The Color of Air* interweaves the stories of Daniel, Koji, and Mariko to create a rich, vibrant, bittersweet chorus that celebrates their lifelong bond to one other and to their immigrant community. As Mauna Loa threatens their lives and livelihoods, it also unearths long held secrets simmering below the surface that meld past and present, revealing a path forward for them all.

**To Boldly Go** Dec 06 2020 The literature of ideas. When author Pamela Sargent used those words to describe science fiction in 1975, the genre had exploded into the literary mainstream. As a literature of ideas, science fiction has proven to be a powerful metaphor for the world around us, offering a rich tapestry of imagination through which to explore how we lead, how we think, and how we interact. *To Boldly Go* assembles more than thirty writers from around the world—experts in leadership and strategy, senior policy advisors and analysts, professional educators and innovators, experienced storytellers, and ground-level military leaders—to help us better understand ourselves through the lens of science fiction. Each chapter of *To Boldly Go* draws out the lessons that we can learn from science fiction, drawing on classic examples of the genre in ways that are equally relatable and entertaining. A chapter on the burdens of leadership by *Ghost Fleet* author August Cole launches readers into the cosmos with Captain Avatar aboard the space battleship Yamato. In another chapter, the climactic Battle of the Mutara Nebula from *The Wrath of Khan* weighs the advantages of experience over intelligence in the pursuit of strategy. What does inter-species conflict in science fiction tell us about our perspectives on social Darwinism? Whether using *Star Trek: Deep Space Nine* to explore the nuances of maritime strategy or *The Expanse* to better understand the threat posed by depleted natural resources, *To Boldly Go* provides thoughtful essays on relevant subjects that will appeal to business leaders, military professionals, and fans of science fiction alike.

**Air Power in UN Operations** Jul 01 2020 Air power for warfighting is a story that's been told many times. Air power for peacekeeping and UN enforcement is a story that desperately needs to be told. In rich detail this volume describes: aircraft transporting vital supplies to UN peacekeepers and massive amounts of humanitarian aid to war-affected populations; aircraft serving as the 'eyes in sky' to keep watch for the world organization; and combat aircraft enforcing the peace. Rich poignant case studies illuminate the past and present use of UN air power, pointing the way for the future.

**When Breath Becomes Air** Aug 14 2021 \*\* SUNDAY TIMES NUMBER ONE BESTSELLER\*\* 'Rattling. Heartbreaking. Beautiful.' Atul Gawande, bestselling author of *Being Mortal* What makes life worth living in the face of death? At the age of thirty-six, on the verge of completing a decade's training as a neurosurgeon, Paul Kalanithi was diagnosed with inoperable lung cancer. One day he was a doctor treating the dying, the next he was a patient struggling to live. *When Breath Becomes Air* chronicles Kalanithi's transformation from a medical student asking what makes a virtuous and meaningful life into a neurosurgeon working in the core of human identity - the brain - and finally into a patient and a new father. Paul Kalanithi died while working on this profoundly moving book, yet his words live on as a guide to us all. *When Breath Becomes Air* is a life-affirming reflection on facing our mortality and on the relationship between doctor and patient, from a gifted writer who became both. 'A vital book about dying. Awe-inspiring and exquisite. Obligatory reading for the living' Nigella Lawson

**The Air You Breathe** Feb 26 2020 "[A] glorious, glittery saga of friendship and loss... I read *The Air You Breathe* in two nights. (One might say I inhaled it.)" --NPR "Echoes of Elena Ferrante resound in this sumptuous saga." --O, The Oprah Magazine "Enveloping...Peebles understands the shifting currents of female friendship, and she writes so vividly about samba that you close the book certain its heroine's voices must exist beyond the page." -People The story of an intense female friendship fueled by affection, envy and pride--and each woman's fear that she would be nothing without the other. Some friendships, like romance, have the feeling of fate. Skinny, nine-year-old orphaned Dores is working in the kitchen of a sugar plantation in 1930s Brazil when in walks a girl who changes everything. Graça, the spoiled daughter of a wealthy sugar baron, is clever, well fed, pretty, and thrillingly ill behaved. Born to wildly different worlds, Dores and Graça quickly bond over shared mischief, and then, on a deeper level, over music. One has a voice like a songbird; the other feels melodies in her soul and composes lyrics to match. Music will become their shared passion, the source of their partnership and their rivalry, and for each, the only way out of the life to which each was born. But only one of the two is destined to be a star. Their intimate, volatile bond will determine each of their fortunes--and haunt their memories. Traveling from Brazil's inland sugar plantations to the rowdy streets of Rio de Janeiro's famous Lapa neighborhood, from Los Angeles during the Golden Age of Hollywood back to the irresistible drumbeat of home, *The Air You Breathe* unfurls a moving portrait of a lifelong friendship--its unparalleled rewards and lasting losses--and considers what we owe to the relationships that shape our lives.

**The Book of Air** Aug 22 2019 In *The Book of Air*, award-winning astrologer Steven Forrest continues his investigation of the four elements which began with *The Book of Fire* and *The Book of Earth*. In this third volume of the series, he focuses on what seems to be a very simple idea: the fine art of truly paying attention. He writes, "Air is what connects our hearts and our minds to the world around us. Astrologically - but also in plain speech - it is the linking element, telegraphing an endless stream of information to us - and letting us send a few telegrams in return. Air makes a mockery of the delusion that we are separate from each other - or, for that matter, from anything else. Air connects. It is what allows us to pay attention, and perhaps to create some good reasons for other people to pay attention to us." In these pages, Forrest offers a detailed exploration of Gemini, Libra, and Aquarius, along with their planetary rulers and their associated astrological houses: the third, the seventh, and the eleventh. Together, these powerful words in astrology's magical vocabulary are the key to nothing less than aligning your mind with reality as it actually is.

*Choked* Jun 24 2022 Nothing is as elemental, as essential to human life, as the air we breathe. Yet around the world, in rich countries and poor ones, it is quietly poisoning us. Air pollution prematurely kills seven million people every year, including more than one hundred thousand Americans. It is strongly linked to strokes, heart attacks, many kinds of cancer, dementia, and premature birth, among other ailments. In *Choked*, Beth Gardiner travels the world to tell the story of this modern-day plague, taking readers from the halls of power in Washington and the diesel-fogged London streets she walks with her daughter to Poland's coal heartland and India's gasping capital. In a gripping narrative that's alive with powerful voices and personalities, she exposes the political decisions and economic forces that have kept so many of us breathing dirty air. This is a moving, up-close look at the human toll, where we meet the scientists who have transformed our understanding of pollution's effects on the body and the ordinary people fighting for a cleaner future. In the United States, air is far cleaner than it once was. But progress has failed to keep up with the science, which tells us that even today's lower pollution levels are doing real damage. And as the Trump administration rips up the regulations that have brought us where we are, decades of gains are now at risk. Elsewhere, the problem is far worse, and choking nations like China are scrambling to replicate the achievements of an American agency—the EPA—that until recently was the envy of the world. Clean air feels like a birthright. But it can disappear in a puff of smoke if the rules that protect it are unraveled. At home and around the world, it's never been more important to understand how progress happened and what dangers might still be in store. *Choked* shows us that we hold the power to build a cleaner, healthier future: one in which breathing, life's most basic function, no longer carries a hidden danger.

*The Girl Who Walked On Air* Jul 25 2022 From the queen of historical fiction, *The Girl Who Walked On Air* by Emma Carroll is an enchanting historical adventure for ages 9-11. *Free Air* Sep 03 2020 *Free Air* Sinclair Lewis - Fame was just around the corner when Sinclair Lewis published *Free Air* in 1919, a year before *Main Street*. The latter novel zeroed in on the town of Gopher Prairie; the former stopped there briefly and then took the reader by automobile in search of America. *Free Air* heads toward a West that was brimming with possibilities for suddenly mobile Americans at the end of a world war. The vehicle in Lewis's novel, not a Model T but a Gomez-Dep roadster, takes Claire Boltwood and her father from Minnesota to Seattle, exposing them all to the perils of early motoring. On the road, the upper-crust Boltwoods are at once more insignificant and more noble. The greatest distance to be overcome is the social one between Claire and a young mechanic named Milt, who, with a cat as his traveling companion, follows close behind. If *Free Air* anticipates many of the themes of Lewis's later novels, it also looks forward to a genre that includes John Steinbeck's *Travels with Charley* and Josh Greenfeld and Paul Mazursky's *Harry and Tonto*. And the character of Claire, blazing her own trail across the West, looks back to the nineteenth-century pioneer woman and ahead to the independent-minded movie heroines played by Katherine Hepburn.

*The Thinnest Air* Jul 13 2021 A woman's disappearance exposes a life of secrets in a twisting novel of psychological suspense from the author of *The Memory Watcher*. Meredith Price is the luckiest woman alive. Her husband, Andrew, is a charming and successful financial broker. She has two lovely stepchildren and is living in affluence in a mountain resort town. After three years of marriage, Meredith's life has become predictable. Until the day she disappears. Her car has been discovered in a grocery store parking lot--purse and phone undisturbed on the passenger seat, keys in the ignition, no sign of struggle, and no evidence of foul play. It's as if she vanished into thin air. It's not like Meredith to simply abandon her loved ones. And no one in this town would have reason to harm her. When her desperate sister, Greer, arrives, she must face a disturbing question: What if no one really knows Meredith at all? For Greer, finding her sister isn't going to be easy...because where she's looking is going to get very, very dark.
