Crossing into Medicine Country Mar 26 2022 " Part Mark Twain, part Carlos Castaneda . . . a rich broth of enchantment, wisdom, and holy mischief " (Julia Cameron, author of *The Artist's Way*). As a child of Choctaw descent growing up in Oklahoma Indian country, David Carson knew that his mother and aunts took part in native women's circles devoted to preserving the unwritten traditions of their ancestors. But it was only later that Carson realized his desire to learn and understand the ancient ways of his people. With "lively style, quiet wit, and sharp perceptions," he describes how he first encountered and studied under his greatest teacher, Choctaw medicine woman Mary Gardener (Paula Gunn Allen, author of *The Sacred Hoop*). Over the course of three years, Carson immersed himself in a world of alternative medicine and alternate realities, of plants and animals, and methods of influencing the energy that surrounds all human beings. Only then was he able to be fully initiated as a ceremonial healer. In *Crossing into Medicine Country*, Carson recounts Gardener's teachings as he learned them, offering a glimpse into his own mind-awakening experiences and the potential for healing within, without, and with all things.

[Crossing Borders](#) Nov 09 2020 Advance praise from public figures José Andrés, Al Franken, Jonathan Blitzer of *The New Yorker*, and Russell Moore of *Christianity Today*. Find the moving stories of American immigrants and their journeys in Ali Noorani's chronicle. In an era when immigration on a global scale defines the fears and aspirations of Americans, *Crossing Borders* presents the complexities of migration through the stories of families fleeing violence and poverty, the government and nongovernmental organizations helping or hindering their progress, and the American communities receiving them. Ali Noorani, who has spent years building bridges between immigrants and their often conservative communities, takes readers on a journey to Honduras, Ciudad Juárez in Mexico, and Texas, meeting migrants and the organizations and people that help them on both sides of the border. He reports from the inside on why families make the heart-wrenching decision to leave home. Going beyond the polemical, partisan debate, Noorani offers sensitive insights and real solutions. *Crossing Borders* will appeal to a broad audience of concerned citizens across the political spectrum, faith communities, policymakers, and immigrants themselves.

Creakwing's Crossing Aug 07 2020 The swallows have always feared Winter. For them it is a time of dying and decay. A time they have always fled from, seeking the warmth and safety of the southlands. But this year is to be different. The swallows' wise and venerable leader, Creakwing, announces that he is now too old and infirm to undertake the epic journey across thousands of miles of land and sea. He intends to remain in the northlands during the cold dark months of Winter and try to survive alone. Knowing that for him this will mean almost certain death, a group of young swallows devise a daring plan to rescue their leader. Many other birds are enlisted to help in the plan. Among them, the thieving jackdaws, a captive yellow bird, a brilliantly ingenious blue tit, a wise old owl who is not as wise as he thinks he is.... and finally, out in the icy wastes of ocean the mysterious storm petrels. There will be triumph and tragedy during the long and dangerous journey, an epic Crossing about which the bardic swallows will tell tales and sing songs for generations to come. 'Creakwing's Crossing' is a stirring tale in a literary tradition stretching from Kenneth Grahame's *The Wind in The Willows* to *WaterShip Down* by Richard Adams in the present day. It is also a tale to remind us that though the boundaries created by Man continue to create tensions and conflict, the natural world observes no frontiers, and the swallows continue to move through the sky as freely as they have always done, in the ancient mystery of migration.

Crossing Over Aug 31 2022 This book is the product of a journey. A journey that the leadership team and church family of Abundant Life Church in Bradford undertook in order to enter into and possess the land that God had promised them. At times the journey was costly and they were frequently misunderstood, but it was one that took them from being a comfortable, predominantly middle class, financially secure, good church, to being an outreach center to the local community and a resource center for Christians across the world. The many lessons they learned from their journey and subsequently shared with others have resonated with individuals and churches throughout the world. Now these principles are shared in this book for all who seek to draw inspiration, strength and encouragement to cross over their own Jordan - whatever form it takes - to escape the limitations of the past and embrace the fullness of God's purposes.

The Romance of Crossing Borders Oct 21 2021 What draws people to study abroad or volunteer in far-off communities? Often the answer is romance – the romance of landscapes, people, languages, the very sense of border-crossing – and longing for liberation, attraction to the unknown, yearning to make a difference. This volume explores the complicated and often fraught desires to study and volunteer abroad. In doing so, the book sheds light on how affect is managed by educators and mobilized by students and volunteers themselves, and how these structures of feeling relate to broader social and economic forces.

Border Crossing Nov 21 2021 On 6th September 1997, Rosie Thomas, mother of two, bestselling author of a dozen novels, nearing fifty years of age, stepped into a Volvo Amazon in Beijing that was to take her half-way across the world. She and her co-driver - nearly twenty years her junior - Phil Bowen, a pearl diver, charter boat skipper and photographer, were set to retrace the run of the first ever international motor rally. The excitement of the daily time challenge, the strange camaraderie, the bickering over who should drive, the dangerous endurance test of miles on dirt roads, up mountains and through deserts, followed by nights spent sleeping outdoors or in flea pit hotels, is more than matched by Rosie's own internal journey, including a near-death experience at the top of the Himalayas.

The Crossing May 28 2022 NATIONAL BESTSELLER • The second volume of the award-winning Border Trilogy—from the Pulitzer Prize-winning author of *The Road*—fulfills the promise of *All the Pretty Horses* and at the same time gives us a work that is darker and more visionary, a novel with the unstoppable momentum of a classic western and the elegiac power of a lost American myth. In the late 1930s, sixteen-year-old Billy Parham captures a she-wolf that has been marauding his family's ranch. But instead of killing it, he decides to take it back to the mountains of Mexico. With that crossing, he begins an arduous and often dreamlike journey into a country where men meet ghosts and violence strikes as suddenly as heat-lightning—a world where there is no order “save that which death has put there.” An essential novel by any measure, *The Crossing* is luminous and appalling, a book that touches, stops, and starts the heart and mind at once. Look for Cormac McCarthy's new novel, *The Passenger*.

Border Crossing in Greater China Jul 18 2021 China's transformation from a poor and underdeveloped country into a global market power has profoundly altered its socioeconomic power relations with the other countries in the Greater China region, namely, Taiwan and Hong Kong. Indeed, this economic shift has resulted in the massive flow of capital and people from Taiwan as well as Hong Kong to China, to seek business opportunities and new lifestyles. These flows have in turn completely transformed longstanding borderlines in the region. This book examines the transformation of Taiwan and Hong Kong's socioeconomic relationships with China as their economies have become more deeply integrated into Greater China. Across three key sections, it explores the impact of increasing social interaction and the shrinking of existing borderlines to ask whether these changes will bring about a convergence of identity among the people involved. "Production" examines how investments from Taiwan and Hong Kong to China have transformed production networks; "Community" explores the impact of cross-boundary mobility and the integration of migrants into Chinese communities; and finally, "Identity" engages with what is one of the most important issues in contemporary Taiwanese society. *Border Crossing in Greater China* contributes not only to theoretical debates on border crossing issues, but also provides valuable insights on the practical concerns regarding social and political integration and tensions in the region. As such, it will be of great interest to students and scholars of Taiwan studies, Chinese studies, Chinese society and Chinese economics.

Border Thinking on the Edges of the West Oct 28 2019 Drawing on scholarly and life experience on, and over, the historically posited borders between "West" and "East," the work identifies, interrogates, and challenges a particular, enduring, violent inheritance – what it means to cross over a border – from the classical origins of Western political thought. The study has two parts. The first is an effort to work within the Western tradition to demonstrate its foundational and enduring, violent conception of crossing over borders. The second is a creative effort to explore and encourage a fundamentally different outlook towards borders and what it means to be on, at, or over them. The underlying social theoretical disposition of the work is a form of post-Orientalist hermeneutics; the textual subject matter of the two parts of the study is linked using Walter Benjamin's concept of the storyteller. The underlying premise of the work is that the sense of violent possibility on the borders between "West" and "East" existed well before the more recent "age of imperialism" and even before there was a "West" or an "East" to speak of. That sense is constitutive of a political imagination about borders developed deep within the revered sources of Western culture. On the other hand, confronting the influence of such violent imaginaries requires truly novel modes of hermeneutical openness, hospitality and solidarity. Seeking to offer a new understanding and opening in the study of borders, this work will provide a significant contribution to several areas including international relations theory, border studies and political theory.

Crossing the Current Feb 10 2021 In contemporary accounts of the Shining Path insurgency and Peru's internal war, the Upper Huallaga Valley has largely been overlooked—despite its former place as the country's main cocaine-producing region. From afar, the Upper Huallaga became a political and legal no-man's-land. Up close, vibrant networks of connection endured despite strict controls on human habitation and movement. This book asks what happens to such a place once prolonged conflict has ostensibly passed. How have ordinary encounters with land, territory, and law, and with the river that runs through them all, been altered in the aftermaths of war? Gathering stories and images to render the experiences of transportation workers who have ferried passengers and things across and along the river for decades, Richard Kernaghan elaborates a notion of legal topographies to understand how landscape interventions shape routes, craft territories, and muddle temporalities. Drawing on personal narratives and everyday practices of transit, this ethnography conveys how prior times of violence have silently accrued: in bridges and roads demolished, then rebuilt; in makeshift moorings that facilitate both licit and illegal trades; and above all through the river, a liquid barrier and current with unstable banks, whose intricate mesh of tributaries partitions terrains now laden with material traces and political effects of a recent yet far from finished past.

[Crossing the Congo](#) Dec 11 2020 The story of three friends journeying across 2,500 miles of the toughest terrain on the planet in a very old Land Rover called 9Bob. Over two months in 2013, they completed the only north-south crossing of the Congo River Basin in decades, travelling from Kinshasa, in the Democratic Republic of Congo, to Juba, in South Sudan, a journey they had been told repeatedly was 'impossible'. On the way, they faced fierce challenges, ranging from jungle terrain, kleptocracy, fire ants, illegal mining and burrowing parasites, to factional disputes, destroyed bridges, non-existent roads and intense suspicion from local people. These difficulties, and others, found them building rafts and bridges to cross rivers, playing tribal politics, bargaining for Land Rover parts in scrapyards, and conducting makeshift surgery in the jungle--both on 9Bob and on one another. Conjuring all their combined ingenuity and resolve, they got through. But the Congo is raw, and the journey took its toll, exerting a psychological pressure on them that they hadn't expected. And although they all lost something in the Congo, this book is ultimately about the power of teamwork to overcome tremendous odds.

The Bridge Feb 22 2022 Revised and expanded second edition! What have we settled for? Are we giving Him all He deserves? Everything of any importance in our lives as believers has to boil down to our relationship with our Creator, and yet we have been taught to settle for something lukewarm. We have relegated our walk with God to little more than a hobby, when the Scriptures plainly show us that God Himself is passionately in love with His people. He has revealed Himself as Father, Husband, King, and Master and has called each of us to become child, bride, ambassador and servant. How do we meet His level of commitment in a way that honors Him and proclaims His glory and truth to the world? It starts with understanding who He is, what He deserves, what He expects - and how it is all meant to manifest in our lives as the fulfillment of the two great commandments to love Him and our neighbors.
