Why Ask Questions About Islam?: Answers Christians Need to Understand Dec 23 2021 Across the world, Islam appears in eye-catching headlines. We may be aware of what is happening but often we don't understand why. Most Christians have unanswered questions about Islam, don't we? Do Muslims and Christians worship the same God? Does it matter whether one is a Muslim or a Christian? How does Islam view love, sin, salvation, and forgiveness? Is a Muslim's view of Jesus different than a Christian's? What does Bible prophecy say about Islam? How best should a Christian witness to a Muslim? This book answers over 100 questions Christians ask about Islam, and in so doing, reveals Islam's greatest need: a saving faith in the gospel of Jesus Christ. It is the author's hope that this book provides you with a highly informative perspective as Islam is thoughtfully studied and evaluated within the framework of a biblical worldview.

When Spirit Callsyou answer Feb 22 2022 A step by step beginners guide to psychic and mediumship self development. This book explains what psychic ability and mediumship is about and takes the beginner through various steps and exercises to help them develop the skills needed to become proficient and responsible Psychics and Mediums. I hope that by following my guidelines Mediumship will become an enjoyable and problem free experience. It covers such things as professionalism, discipline, legalities, data protection and insurance. Mediumship can be one of the most rewarding gifts that someone can possess. The look of joy on a bereaved person's face when they have received even the shortest message from their loved one is one of the best sights that you will ever behold. The immense feeling of satisfaction that a Medium gains from helping someone realise that death is not final; the comprehension that our loved ones' live on in our hearts and minds, that their 'energy' or 'life essence' is constantly around us, is one of the most beautiful things a Medium will ever experience. The effort that you, as a Medium, put into discovering how to give these messages to the best of your ability will reflect in your work. This book is intended to help guide you through the learning process. Many times I have been asked "Can anyone become Psychic?" The answer to this is very simple. Everyone is born with Psychic abilities (a sixth sense); think of babies in the crib looking at some 'unseen' being and laughing and gurgling at them. Think of a child with his/her imaginary friend or those many 'weird' co-incidences. One of the main problems we encounter is how we can keep these abilities in a useable and workable state throughout our lives whilst trying to juggle life's commitments. This is an extremely tough, and for some impossible, task. This is why many people develop their abilities later in life. This book explains what psychic ability and mediumship is about and takes the beginner through various steps and exercises to help them develop the skills needed to become proficient and responsible Psychics and Mediums. I hope that by following my guidelines Mediumship will become an enjoyable and problem free journey for all those that embark on it. As well as covering all aspects of spiritual development I also include the legal aspects associated with working as a psychic or medium. The book has been produced with as little emphasis on any particular religion as possible. Any references or terminologies that appear to implicate a particular deity or religion are purely there to substantiate the average person's understanding of this particular type of development.

The Name Game Nov 09 2020 From decade to decade, significant changes occur in the choice of first names for children. One-time favorites are perceived as old fashioned and replaced by new choices. In *The Name Game*, Jurgen Gerhards shows that shifts in the choice of names are based on more than arbitrary trends of fashion. Instead, he demonstrates, they are determined by larger currents in cultural modernization. Using classic tools of sociology, Gerhards focuses on changing patterns of first names in Germany from the end of the nineteenth century to the end of the twentieth, using these as an indicator of cultural change. Among the influences he considers are religion, and he notes a trend toward greater secularization in first names. He considers the extent to which Christian names have been displaced, and whether the process is similar for Catholics and Protestants. He traces the impact of different political regimes (Second Empire, Weimar Republic, Third Reich, West Germany, East Germany) and the accompanying rise and fall of German nationalist sentiment. He also investigates the dissolution of the family as a unit of production, and its impact on the naming of children. He shows that the weakening of traditional ties of religion, nation, and family has led to greater individuation and greater receptivity toward foreign first names. Gerhards concludes with a discussion of whether the blurring of gender and sex roles is reflected in the decrease of gender-specific names. Written in a lucid, approachable style, *The Name Game* will be of interest not only to sociologists and cultural studies specialists, but also non-professionals, especially parents who are interested in reflecting on the process of name giving.
