Viduy Booklet for Kids Nov 04 2020 The purpose of this booklet is to make the entire Viduy tefilah accessible to children ages 9-16, for whom reading the English translation in the machzor would not sufficiently explain the meaning of the words. Written in easy-to-understand language and with examples that are applicable to children's lives, this booklet will make the Yom Kippur davening more meaningful and relevant to children of all ages. PRAISE FOR "VIDUY BOOKLET FOR KIDS": In preparing this "Viduy Booklet for Kids", Morah Adina Broder creates a highly readable, child-friendly guide to the Yom Kippur Viduy that will surely enhance young people's understanding and kavanah (intention) when reciting the viduy that recurs so many times during the Yom Kippur service. As an educator par excellence, who touches the heartstrings as well as teaches, Morah Broder brings both an age-appropriate sensitivity to the text and its meaning, as well as concrete examples from the everyday lives of students, that will surely resonate with young people when they use the Booklet as a learning tool and especially as a companion to the Machzor. I hope that it will be used by both schools and parents. - Mrs. Rookie Billet, Shulamith School for Girls, MD Principal I have been shown a draft of "Viduy Booklet for Kids," organized and presented by Mrs. Adina Broder. Viduy is not only a challenging mitzva for us all, it is the centerpiece and anchor for the entire Yom Kippur davening. Mrs. Broder has done a tremendous service to our youth, by opening up to them much of the rabbinic concepts expressed in our viduy. She tries to capture the idea behind each line, with a focus on having practical teshuva messages for our children and grandchildren. May this booklet instill deep feelings of repentance in both young and old, and may we all merit to return to Hashem with all our heart. - Rabbi Shalom Rosner, Rav Nofei Hashemesh

Jurassic Adventure Feb 25 2020 At Dyslexit, we use a modern approach to design books for kids who struggle with dyslexia ? Uniquely designed colored font ? Fluency ? d104/illustration separation ? Focus ? Low-contrast text/background ? Perception We use a dyslexic font where letters have different colors, which helps children to subconsciously remember and connect the letters, resulting in improved fluency. Letters won't dance around anymore since attention will be kept on one letter at the time. d104 is separated from illustrations on independent pages, which keeps your child's focus on the text and prevents the loss of concentration that occurs when text is inside an illustration. Since text inside an illustration creates an unwanted distraction, this also facilitates reading in children with ADHD and autism. Visual perception is facilitated with a low contrast between text and background, which improves your child's readability. The carefully selected low-contrast background behind our letters will also create a huge reading improvement for children with Irlen Syndrome. Since illustrations are separate, there is enough space for larger more readable text, so there is no need for tools like colored overlays, rulers, or dyslexia glasses. Your child will experience overall improved reading comprehension and will be able to practice long, difficult dinosaur names. Dyslexit provides a reading solution, where there is no need for decodable chapter division. Your child can practice long sentences without waging an irritating battle with letters. Jurassic Adventure is a short story about an important, yet dangerous journey of a group of dinosaurs with some emotional scenes about friendship. It is an educational story that teaches children that they can always find friends, no matter what. Our mission is to help your child become a joyful reader, who will gain the skills and confidence needed to enter the world of self-reliant reading. Letters, words, and sentences will finally become a story!

The Survival Guide for Kids with Autism Spectrum Disorders (and Their Parents) Apr 28 2020 October is Autism Awareness Month. This positive, straightforward book offers kids with autism spectrum disorders (ASDs) their own comprehensive resource for both understanding their condition and finding tools to cope with the challenges they face every day. Some children with ASDs are gifted; others struggle academically, some are more introverted, while others try to be social. Some get "stuck" on things, have limited interests, or experience repeated motor movements like flapping or pacing ("stims"). The Survival Guide for Kids with Autism Spectrum Disorders covers all of these areas, with an emphasis on helping children gain new self-understanding and self-acceptance. Meant to be read with a parent, the book addresses questions ("What's an ASD?" "Why me?") and provides strategies for communicating, making and keeping friends, and succeeding in school. Body and brain basics highlight symptom management, exercise, diet, hygiene, relaxation, sleep, and toileting. Emphasis is placed on helping kids handle intense emotions and behaviors and get support from family and their team of helpers when needed.
