The Kurdish Nationalist Movement Jan 30 2020 David Romano's 2006 book focuses on the Kurdish case to try and make sense of ethnic nationalist resurgence generally. In a world rent by a growing number of such conflicts, the questions posed about why, how and when such challenges to the state are mounted are becoming increasingly urgent. Throughout the author analyses these questions through the lens of social movement theory, considering in particular politico-social structures, resource mobilization strategies and cultural identity. His conclusions offer some thought-provoking insights into Kurdish nationalism, as well as into the strengths and weaknesses of various social movement theories. While the book offers a rigorous conceptual approach, the empirical material - the result of the author's personal experiences - makes it a compelling read. It will find a readership amongst students of the Middle East, and also amongst those interested in ethnic relations, minority rights, terrorism, state repression, social movement theories and many other related issues.

militias, 'Ayn al-Hilwe in the south of Lebanon is one of the most contested refugee camps in the Middle East. Known as the 'Capital of the Palestinian Diaspora', the camp has endured a long history of internal power struggles and external influence and intervention. Based on extensive ethnographic research in the camp - focused on the actors who have shaped its modern political trajectory since the rupture caused by the 1993 Oslo Accords - The Palestinian National Movement in Lebanon places the attention on the role of exile leaderships, camp-based militia commanders and shape-shifting networks of patronage in the political landscape of the Palestinian movement in Lebanon. Offering original empirical and theoretical findings, this book will be essential reading for students of the Palestinian movement and refugee politics in the Middle East and beyond.

Soviet Policy in Xinjiang Oct 28 2019 Using recently declassified Soviet documents, Jamil Hasanli examines Soviet involvement in the anti-China rebellion in East Turkistan. Hasanli takes readers back to the early 1930s when the Turkic national movement was suppressed by the Soviet government and the USSR. Hasanli deftly illustrates how Stalin's policies toward the movement changed after the turning point of World War II and the treachery of Sheng Shicai, leading up to the 1944 establishment of the Eastern Turkistan Republic and the start of the Cold War.

Maulana Azad, Islam and the Indian National Movement Jul 06 2020 Maulana Azad was the first education minister of India and a dynamic individual with multiple facets to his personality. He is equally known as one of the foremost freedom fighters, an Urdu poet who also wrote treatises on philosophy and religion. Azad had hoped to lead not only the Muslims but all Indians to freedom. From 1903, when he picked up his pen to launch his first journal, till Partition, he never lost sight of his larger constituency-all Indians, regardless of religion. Why then is one

The Steelband Movement Mar 02 2020 The Steelband Movement examines the dramatic transformation of pan from a Carnival street music into a national art and symbol in Trinidad and Tobago. By focusing on pan as a cultural process, Stephen Stuempfle demonstrates how the struggles and achievements of the steelband movement parallel the problems and successes of building a nation. Stuempfle explores the history of the steelband from its emergence around 1940 as an assemblage of diverse metal containers to today's immense orchestra of high-precision instruments with bell-like tones. Drawing on interviews with different generations of pan musicians (including the earliest), a wide array of archival material, and field observations, the author traces the growth of the movement in the context of the grass-roots uprisings of the 1930s and 1940s, the American presence in Trinidad in World War II, the nationalist movement of the postwar period, the aftermath of independence from Britain in 1962, the Black Power protests and the oil boom of the 1970s, and the recession of recent years. The Steelband Movement suggests that the history of pan has involved a series of negotiations between different ethnic groups, socioeconomic classes, and social organizations, all of which have attempted to define and use the music according to their own values and interests. This drama provides a window into the ways in which Trinidadians have constructed various visions of a national identity.

century Jun 16 2021 Seminar paper from the year 2007 in the subject Politics - Political Systems - History, grade: 1,3, Vilnius University, 7 entries in the bibliography, language: English, abstract: To describe the Ukrainian nationalism I will also use the famous concept from the Czech historian Hroch who is dividing the national movements into three phases. Phase 1) cultural awakening- a small group of educated people develops an interest in language, history and folklore of an ethnic group. Phase 2) national agitation- the implementation of national consciousness into a wider circle of the population in order to mobilize them and to integrate them into a national community which will lead to Phase 3) mass movement with its goal of political autonomy (Hroch in Kappeler 2001/ Weeks 1996). The case of Ukraine is in this sense not very easy to look at because of several events, in form of national policies of two influential Empires. Another interesting theoretical point of view is the distinction between 'ancient' and 'young' nations and their prospects to form a successful national movement. The former having a tradition of a national elite, and high culture, and the latter not. Young nations also have an incomplete social structure and almost no urban middle class. They also are fighting first primarily against the foreign elite and less against the state. The main aim is to create firstly a high culture of their own. Ukraine is seen as such a 'small' or 'young' nation (Kappeler 2001). I will describe Ukrainian nationalism in the context of modernization and mobilization through social, economic and political changes as well as on special events that might had a greater impact on the Ukrainian nationalism. The time period covered in this paper will be from the starting point of pre-historical Ukrainian 'nation' to the reenactment of the above described third phase of national mass movement.

of the chief founding members of the National Party of Scotland in 1928 and, with the merger of the NPS and the Scottish Party, of the Scottish National Party in 1934. In 1942, he left the SNP and was instrumental in the forming the Scottish Convention which went on to produce the Scottish Covenant in 1949, upon which nearly two million signatures of support for a Scottish parliament were obtained. After a high-profile trip to the US and Canada to present Scotland's case for Home Rule he was voted Lord Rector at Glasgow University. During his stint in this position he became involved in the plot to steal the Stone of Destiny from Westminster Abbey before going on to publish "The Flag in the Wind" in 1955. With a new introduction by the author's son, this updated edition of John MacCormick's seminal work examines the early years of the twentieth-century Nationalist movement in Scotland, providing an invaluable insight into people and events that help create and then shape the SNP and its campaign to secure a devolved Scottish Assembly.

Women in Southeast Asian Nationalist Movements Oct 09 2020 In many Southeast Asian countries, anti-colonial nationalist struggles provided the first arena in which women began to be involved in politics. In post-colonial times nationalism continues to offer women opportunities for political activity. Yet books on Southeast Asian nationalist movements make very little - if any - mention of women in their ranks. Biographical studies of politically active women in Southeast Asia are also rare. "Women in Southeast Asian Nationalist Movements" is therefore groundbreaking both in highlighting the roles of women in nationalist movements in the region and in taking a biographical approach. In this book, experts on 7 countries examine the experiences of 12 women who have been active in nationalist movements in Southeast Asia. The women selected for study range from well known to little known, and the nationalist movements in which they have been involved date from the early

Women in the Indian National Movement Apr 14 2021 This book examines the participation of the women of North India in the Indian nationalist movement, portraying how women's lives were significantly affected and reshaped by their involvement in the freedom struggle. The author discusses how women's participation in this mass movement was encouraged by 'the domestication of the public sphere' so that they could enter the public domain without being alienated from their domestic lives. She argues that the raised consciousness engendered by women's participation in the freedom struggle paved the way for a gradually evolving idea of women's emancipation.

The National Movement in Scotland Nov 02 2022 Originally published in 1978, but now re-issued with a new Preface by James Mitchell, this volume traces the rise of the SNP, with special emphasis on explaining the increase of the National Party vote in Scotland from the early 1960s to the late 1970s. The book draws much of its information from interviews with members and ex-members of the SNP, including some who helped to found the party in 1928. In describing the movement and giving an account of its main features, the author begins with a discussion of various aspects of Scottish society which have contributed to the growth of nationalism. Civil Rights History from the Ground Up Jun 04 2020 After decades of scholarship on the civil rights movement at the local level, the insights of bottom-up movement history remain essentially invisible in the accepted narrative of the movement and peripheral to debates on how to research, document, and teach about the movement. This collection of original works refocuses attention on this bottom-up history and compels a rethinking of what and who we think is central to the movement. The essays examine such locales as Sunflower County, Mississippi; Memphis, Tennessee; and Wilson, North Carolina; and engage such issues as nonviolence and self-defense, the implications of focusing on women in the movement, and struggles for freedom beyond voting rights and school desegregation. Events and incidents discussed range from the movement's heyday to the present and include the Poor People's Campaign mule train to Washington, D.C., the popular response to the deaths of Rosa Parks and Coretta Scott King, and political cartoons addressing Barack Obama's presidential campaign. The kinds of scholarship represented here--which draw on oral history and activist insights (along with traditional sources) and which bring the specificity of time and place into dialogue with broad themes and a national context--are crucial as we continue to foster scholarly debates, evaluate newer conceptual frameworks, and replace the superficial narrative that persists in the popular imagination.

A History of Nigeria Dec 11 2020 Nigeria is Africa's most populous country and the world's eighth largest oil producer, but its success has been undermined in recent decades by ethnic and religious conflict, political instability, rampant official corruption and an ailing economy. Toyin Falola, a leading historian intimately acquainted with the region, and Matthew Heaton, who has worked extensively on African science and culture, combine their expertise to explain the context to Nigeria's recent troubles through an exploration of its pre-colonial and colonial past, and its journey from independence to statehood. By examining key themes such as colonialism, religion, slavery, nationalism and the economy, the authors show how Nigeria's history has been swayed by the vicissitudes of the world around it, and how Nigerians have adapted to meet these challenges. This book offers a unique portrayal of a resilient people living in a country with immense, but unrealized, potential.

Violence, Nonviolence, and the Palestinian National Movement

May 16 2021 Why do some national movements use violent protest and others nonviolent protest? Wendy Pearlman shows that much of the answer lies inside movements themselves. Nonviolent protest requires coordination and restraint, which only a cohesive movement can provide. When, by contrast, a movement is fragmented, factional competition generates new incentives for violence and authority structures are too weak to constrain escalation. Pearlman reveals these patterns across one hundred years in the Palestinian national movement, with comparisons to South Africa and Northern Ireland. To those who ask why there is no Palestinian Gandhi, Pearlman demonstrates that nonviolence is not simply a matter of leadership. Nor is violence attributable only to religion, emotions or stark

Brothers or Enemies Mar 14 2021 Contrary to the prevailing opinion, the idea of Ukrainian independence did not emerge at the end of the nineteenth-century. In *Brothers and Enemies*, Johannes Remy reveals that the roots of Ukrainian independence were planted fifty years earlier. Remy contextualizes the Ukrainian national movement against the backdrop of the Russian Empire and its policy of oppression in the mid-nineteenth-century. Remy utilizes a wide range of unpublished archival sources to shed light on topics that are absent from current discourse including: Ilarion Vasilchikov's alliance with Ukrainian activists in 1861, the forged revolutionary proclamation used to deport Pavlo Chubynsky (who is known today as the author of the Ukrainian national anthem), and the 1864 negotiations between Kyiv activists and the Polish National Government. *Brothers and Enemies* is the first systematic study of imperial censorship policies during the period and will be of interest to those who seek a better understanding of the current Ukrainian-Russian conflict.

The Kurdish National Movement in Turkey Jul 30 2022 This book provides an interpretive and critical analysis of Kurdish identity, nationalism and national movement in Turkey since the 1960s. By raising issues and questions relating to Kurdish political identity and highlighting the ideological specificity, diversity and the transformation of Kurdish nationalism, it develops a new empirical dimension to the study of the Kurds in Turkey. Cengiz Gunes applies an innovative theoretical approach to the analysis of an impressively large volume of primary sources and data drawn from books and magazines published by Kurdish activists, political parties and groups. The analysis focuses on the specific demands articulated by the Kurdish national movement and looks at Kurdish nationalism at a specific level by disaggregating the nationalist discourse, showing variations over time and across different Kurdish nationalist organisations. Situating contemporary Kurdish political identity and its political manifestations within a historical framework, the author examines the historical and structural conditions that gave rise to it and influenced its evolution since the 1960s. The analysis also encompasses an account of the organisational growth and evolution of the Kurdish national movement, including the political parties and groups that were active in the period.

After Independence Nov 29 2019 The majority of the existing work on nationalism has centered on its role in the creation of new states. *After Independence* breaks new ground by examining the changes to nationalism after independence in seven new states. This innovative volume challenges scholars and specialists to rethink conventional views of ethnic and civic nationalism and the division between primordial and constructivist understandings of national identity. "Where do nationalists go once they get what they want? We know rather little about how nationalist movements transform themselves into the governments of new states, or how they can become opponents of new regimes that, in their view, have not taken the self-determination drive far enough. This stellar collection contributes not only to comparative theorizing on nationalist movements, but also deepens our understanding of the contentious politics of nationalism's ultimate product--new countries." --Charles King, Chair of the Faculty and Ion Ratiu Associate Professor, Georgetown University School of Foreign Service "This well-integrated volume analyzes two important variants of nationalism--postcolonial and postcommunist--in a sober, lucid way and will benefit students and scholars alike." --Zvi Gitelman, University of Michigan Lowell W. Barrington is Associate Professor of Political Science, Marquette University.

Round Table Conferences, the Quit India Movement; and the Partition. Drawing on statistical analysis and exhaustive research, it examines the impact of prevailing domestic and international economic conditions on the evolution of the politics of the Congress, the Muslim League, as well as the Indian revolutionary, socialist, and communist parties. The book also throws light on the complex interplay of power politics between the Centre, the States, and the various grass-roots organizations on one hand and the push and pull of Hindu-Muslim communal politics on the other. The Arab Awakening: The Story Of The Arab National Movement

Sep 07 2020 This remarkable book on a complex and controversial subject is widely regarded as the best full account of the rise of the Arab national movement. After several years of travel and research in all parts of the Arab world, the author managed to gain access to all the relevant material necessary to the writing of a book such as this—much of the material having been unavailable to other writers on the subject. The fruits of Mr. Antonius' research have been embodied in this unique story of the origins and development of the national movement from its earliest beginnings in the nineteenth century down to the post-World War I era. In addition to the narrative account and assessments of military and political leaders, including Lawrence of Arabia, the book contains a set of documents of fundamental importance to the history of the Arab revival. The Comparative Approach to National Movements Oct 21 2021 Miroslav Hroch’s *Social Preconditions of National Revival* has profoundly influenced the study of nationalism since it first appeared in English translation, particularly because of its famous three-phase model for describing and analyzing national movements in Eastern Europe. Contributors to this book explore Hroch’s continued relevance to the field of nationalism studies with four case studies and two theoretical/historiographic essays. Two case studies apply Hroch’s thinking to Eastern Europe in light of subsequent historiography, finding that Hroch’s ideas remain useful for understanding national movements in Belarus and among the Kuban Cossacks. Two further studies apply Hroch’s schema to the Mexican independence movement and contemporary Pakistan - times and places that Hroch specifically excluded from his own considerations. The first theoretical contribution seeks to apply Begriffsgeschichte to Hroch’s work; the second suggests that Hroch’s phases form a useful typology of nationalism, thus facilitating communication between different branches of nationalism studies. Hroch ends the volume with his own commentary on the various contributions. This book was published as a special issue of *Nationalities Papers*.

Agreement map signed in May 1918 by the Imperial powers of Great Britain and France, constituted the blueprint for redrawing the map of the Middle East after the dismemberment of the Ottoman Empire in 1918, by the victorious Allies thus dividing the Arab territories as well as Kurdistan into its current form. In this book, the author makes an ambitious attempt to provide a comprehensive new insight into the Kurdish national movement and its struggle against the mandatory power (the British) and the Iraqi government for achievement of national self-determination from 1918 to 1932. The book explores both Kurdish and Arab nationalism within the context of power relations in international politics at the time on the one hand, and in relation to domestic political development in Iraq on the other. Thereby, salient issues are explored, inter alia, the reasons for the British failure to create a modern national state in Iraq, the reluctance of the Anglo-Iraqi authorities to accommodate Kurdish rights and their policy to incorporate Kurdistan into the nascent Iraqi state, the U.S. interests and implication in the region, and the impact of the principle of self-determination advocated by President Wilson on Kurdish and Arab nationalism. National Movement and Politics in Orissa, 1920-1929 Dec 23

2021 This book is a comprehensive study of the nationalist movement and politics in Orissa during the 1920s. It examines the national movement in the late nineteenth century and the first two decades of the twentieth century prior to the launch of the Civil Disobedience Movement by focusing on the regional peculiarities, especially the Oriya linguistic and cultural identity movement. Based on extensive research, it reflects upon the emergence of a class of new intelligentsia as an opinion maker of the society, its concern for societal needs, the divergent trends within it, the commonalities and differences among them and the organizational linkages between the local intelligentsia and the nationalists. Despite the contradictions, the author argues that the local and national aspirations were not antagonistic but complemented each other, as witnessed during the Calcutta Congress of 1928, establishing the Indian National Congress' twin commitments on the question of regional identity and national liberation. National Movement and Politics in Orissa: 1920-29 is a valuable contribution to the discourse on the nationalist movement and will be of great interest to students and scholars of modern Indian history as well as to the social science academia.
