Encounters in Yoga and Zen Jun 08 2020 Collected by the author over many years, these stories from the Yoga and Zen traditions are the flint and steel that strike a spark that lights up the mind with insights that one should ponder daily to bring to light ever deeper meaning. They may be similar in intent to Zen Koans - but they are rather different in content. In many Zen Koans someone says or does something extraordinarily inappropriate, which catches your attention just because it's extraordinary -but afterwards the light from them has to be applied to daily life. In contrast, the stories here are often ordinary incidents from ordinary lives (not that there aren't some extraordinary ones too!) that nevertheless open the mind's eye to the vast potential for realization and inspiration to be found in daily life. The pictures featured throughout this book were brushed by Jacques Allais in the Suiboku style, in which he was an acknowledged expert. The innate beauty of this ancient monochrome ink-painting technique lies in its subtlety of expression, in which infinitely more is suggested than is drawn on the page - making it the perfect vehicle for focusing meditation practice as well as an ideal complement to the stories in this book.

The Other Side of Zen Apr 06 2020 "Popular understanding of Zen Buddhism typically involves a stereotyped image of isolated individuals in meditation, contemplating nothingness. This book presents the "other side of Zen," by examining the movement's explosive growth during the Tokugawa period (1600-1867) in Japan and by shedding light on the broader Japanese religious landscape during the era. Using newly-discovered manuscripts, Duncan Ryuken Williams argues that the success of Soto Zen was due neither to what is most often associated with the sect, Zen

meditation, nor to the teachings of its medieval founder, Dogen, but rather to the social benefits it conveyed." "Williams's work is based on careful examination of archival sources including temple logbooks, prayer and funerary manuals, death registries, miracle tales of popular Buddhist deities, secret initiation papers, villagers' diaries, and fundraising donor lists."--Jacket.

Gardens of Longevity in China and Japan Sep 11 2020 Shows oriental gardens that feature rocks, stones, and gravel, discusses the meaning attached to their design, and also looks at ancient paintings of these gardens.

One Bird, One Stone May 20 2021 Drawn from the archives of major Zen centers in America and interviews with some of the most seminal figures of American Zen, including Philip Kapleau, Bernie Glassman, Gary Snyder, and Walter Nowick, *One Bird, One Stone* presents the notable encounters between teachers and students, the moments of insight and wisdom, the quotable quotes, and the humor of Zen as it has flowered in America over the last one hundred-plus years. Murphy, a Zen

student and an accomplished writer, conducted numerous personal interviews and distilled over one hundred pithy stories. He covers Zen masters Suzuki, Maezumi, Seung Sahn, Robert Aitken, and Philip Kapleau along with earnest students Gary Snyder, Alan Watts, and Philip Whalen and others.

Бизнес-журнал, 2008/11 Jun 20 2021 «Бизнес-журнал» (www.b-mag.ru) - самое массовое всероссийское деловое издание, адресованное предпринимателям, управляющим собственникам и топ-менеджерам компаний. Выходит ежемесячно в более чем 20 регионах России общим тиражом около 100 тысяч экземпляров. Журнал является открытой площадкой для обмена предпринимательским опытом, для распространения информации о лучших деловых практиках и популяризации современных управленческих, финансовых и маркетинговых инструментов. Основное внимание редакция уделяет публикациям, затрагивающим практические аспекты ведения бизнеса в России.

Keras Reinforcement Learning Projects Jan 04 2020 A practical guide to mastering reinforcement

learning algorithms using Keras Key Features Build projects across robotics, gaming, and finance fields, putting reinforcement learning (RL) into action Get to grips with Keras and practice on real-world unstructured datasets Uncover advanced deep learning algorithms such as Monte Carlo, Markov Decision, and Q-learning Book Description Reinforcement learning has evolved a lot in the last couple of years and proven to be a successful technique in building smart and intelligent AI networks. Keras Reinforcement Learning Projects installs human-level performance into your applications using algorithms and techniques of reinforcement learning, coupled with Keras, a faster experimental library. The book begins with getting you up and running with the concepts of reinforcement learning using Keras. You'll learn how to simulate a random walk using Markov chains and select the best portfolio using dynamic programming (DP) and Python. You'll also explore projects such as forecasting stock prices using Monte Carlo methods, delivering vehicle routing application using Temporal Distance (TD) learning algorithms, and balancing a Rotating Mechanical System using Markov decision processes. Once you've understood the basics, you'll move on to Modeling of a Segway, running a robot control system using deep reinforcement learning, and building a handwritten digit recognition model in Python using an image dataset. Finally, you'll excel in playing the board game Go with the help of Q-Learning and reinforcement learning algorithms. By the end of this book, you'll not only have developed hands-on training on concepts, algorithms, and techniques of reinforcement learning but also be all set to explore the world of AI. What you will learn Practice the Markov decision process in prediction and betting evaluations Implement Monte Carlo methods to forecast environment behaviors Explore TD learning algorithms to manage warehouse operations Construct a Deep Q-Network using Python and Keras to control robot movements Apply reinforcement concepts to build a handwritten digit recognition model using an

image datasetAddress a game theory problem using Q-Learning and OpenAI GymWho this book is for Keras Reinforcement Learning Projects is for you if you are data scientist, machine learning developer, or AI engineer who wants to understand the fundamentals of reinforcement learning by developing practical projects. Sound knowledge of machine learning and basic familiarity with Keras is useful to get the most out of this book

The Mini Zen Gardening Kit Jun 28 2019 This carry-along version of our enormously popular Zen Gardening Kit provides a touch of tranquility on the go. Packaged with a 32page introduction to the aesthetic enlightenment of Zen gardening, it includes a tray, fine sand, decorative rocks, and miniature wooden rake.

The Burden Feb 03 2020 She had been raised to fight, but one decision will threaten the only life she knows. Alexa is a warrior and she is destined to be one of the leaders in the village. Her life is full of training while she watches the skies for the threat of dragons. When the dragons attack, wiping out most of the elders, Alexa swears that she is going to end the long-running feud once and for all. She makes a plan but her best-friend isn't going to let her face it alone. With Zen at her side, Alexa discovers that life outside the village is very different. The closer they get to the mountains, the more they learn about the dragons and the burden they carry. Despite all this, Alexa is steadfast

in one thing: the dragons must die. Alexa soon has to face the unimaginable and risk breaking her heart to save them all.
