*Culture and Cultural Politics Under Reza Shah* Nov 09 2020 Culture and Cultural Politics Under Reza Shah presents a collection of innovative research on the interaction of culture and politics accompanying the vigorous modernization programme of the first Pahlavi ruler. Examining a broad spectrum of this multifaceted interaction it makes an important contribution to the cultural history of the 1920s and 1930s in Iran, when, under the rule of Reza Shah Pahlavi, dramatic changes took place inside Iranian society. With special reference to the practical implementation of specific reform endeavours, the various contributions critically analyze different facets of the relationship between cultural politics, individual reformers and the everyday life of modernist Iranians. Interpreting culture in its broadest sense, this book brings together contributions from different disciplines such as literary history, social history, ethnomusicology, art history, and Middle Eastern politics. In this way, it combines for the first time the cultural history of Iran's modernity with the politics of the Reza Shah period. Challenging a limited understanding of authoritarian rule under Reza Shah, this book is

a useful contribution to existing literature for students and scholars of Middle Eastern History, Iranian History and Iranian Culture.

**Corporate Behavior and Sustainability** Aug 07 2020 Companies can no longer expect to engage in dubious or unethical corporate behaviour without risking their reputation and damaging, perhaps irrevocably, their market position. Irresponsible corporate behavior not only deprives shareholders of long-term returns but also ultimately imposes a cost on society as a whole. Sustainable business is about ensuring that entities contribute toward positive social, environmental, and economic outcomes. Bad business behaviour is costly for stakeholders, for markets, for society, and the economy alike. To ensure that a company behaves well, the buy-in of the leadership team is crucial. The full commitment of the board of directors, in conjunction with the senior managers of the organization, is required if an organization is to be socially responsible. In this sense, leadership does not reside with an individual (the CEO) within the organization but with all of those at the apex of corporate power and control. Effective change management requires enlightened and capable leadership to instigate and drive the process of embedding a sustainable and socially responsible corporate philosophy and culture that supports good business decision-making. A profound understanding of the requirements of such a leadership process will help corporate managers become highly effective change agents. Governance will be the main driver of this change. For the economy and financial markets to become sustainable and resilient, radical changes in corporate leadership need to take place. Integrated reporting, government regulation, and international standards will all be important factors in bringing about this change. As well as understanding the effects of corporate behavior on financial markets, such an understanding is also now imperative in relation to the social and environmental contexts.

**Successful Methods for CBSE-UGC NET JRF (Paper 1): Teaching and Research Aptitude, General knowledge. Mindset and Best**

**Methods.** Feb 22 2022 There harbors an immense pleasure to write a book aimed at cracking the CBSE-UGC NET examination which is a target for lots of aspiring students and research scholars in the country for the eligibility of Lectureship and preferably with the addition of a Junior Research Fellowship (JRF) to carry out fundamental and applied research. In the current scope of events, qualifying the NET has become more or less compulsory for a rewarding career in research or lectureship in our country. This was a bold step, and many aspirants were ill prepared for the sudden change. What's more, the inclusion of mathematically inclined aptitude questions were a bane of many and was subjected to intense criticism. In this scenario, many students lay in a precarious position, especially in Paper 1, which includes Teaching and research Aptitude, and General Knowledge. Mere practice was not enough for many, as the Aptitude questions were very new to the aspirants, many of whom are from the arts background with less exposure top mathematical methods. Many aspirants were left bewildered in the choice of the correct method of learning in this section. I strongly feel that this book can help the aspirants to make this "new" section much easier to deal with.

However, in conjugation, the aspirant must not forget the hallowed ethos of hard-work, persistence and revision! All the best! This book takes on a new approach for the Paper-1 in NET. Instead of a large "bank" of questions which the aspirant can practice upon, this book focuses on a few questions of different types and walks the aspirant through the solution in a very detailed way. This is done so as to increase the conceptual understanding of the aspirant. This method of learning is retained much better, and increases the problem solving capabilities of the aspirants in a more impactful way.

Applications and Innovations in Expert Systems VI Dec 31 2019 R. MILNE Intelligent Applications Ltd The papers in this volume are

the Application Papers presented at ES98, the Eighteenth International Conference of the British Computer Society's Specialist Group on Expert Systems. This year has been yet another "applications" success for the conference with this volume containing seventeen papers describing either deployed applications or emerging applications. All these documented case studies provide clear evidence of the success of AI technology in solving real business problems. Six of these papers were nominated for the Best Application Award during the review process. These nominations were then reviewed by the members of the Programme Committee to select the winning paper. The papers in the volume were subject to refereeing by at least two referees. All papers which were controversial for some reason were discussed in depth by the Application Programme Committee. Ten referees from the industrial and commercial sector and nine referees from the academic sector assisted me in reviewing the papers. The review form asked the referee to score the papers according to a number of dimensions, to rate it overall, and to offer critical comments to me, and to the authors. It also asks the referee to score their expertise in the area of each paper they review. Only reviews from 'expert' referees are used.

The Success Book Oct 09 2020 Success is often measured by financial successes and business achievements. The intention of this book is to help entrepreneurs, leaders and individuals to reflect and re-evaluate their current level of success, to see whether it is serving them or the people around them. Where their notions of what it is to be successful have come from, and whether they now feel appropriate to them. Authentic Success is by its very nature a personal journey of exploration and there are no rights or wrongs to each journey. What matters is whether it resonates with you. This book enables you to create a life path for yourself that is more harmonious for you to enjoy and experience, which in turn is more harmonious and satisfying for those around you. In that way we all could achieve more with less effort and less strife, which ultimately will help the world, become a slightly better place to live in. LID Publishing's popular Concise Advice Lab notebooks are designed to be quick and

comprehensive brainstorming tools and skill-building resources for busy professionals. The small trim size makes it easy to take along in a briefcase or purse. Interior pages are matte finish, so ink won't smear, and there's plenty of space to jot notes. A ribbon makes it easy to mark your place, and the elastic outer band keeps the notebook closed.
