**companion website at [www.wiley.com/college/bradley](http://www.wiley.com/college/bradley), which contains: Animations of selected worked examples providing students with a new way of understanding the problems Access to the Maple T.A. test bank, which features over 500 algorithmic questions Further learning material, applications, exercises and solutions. Problems in context studies, which present the mathematics in a business or economics framework. Updated PowerPoint slides, Excel problems and solutions. "The text is aimed at providing an introductory-level exposition of mathematical methods for economics and business students. In terms of level, pace, complexity of examples and user-friendly style the text is excellent - it genuinely recognises and meets the needs of students with minimal maths background." —Colin Glass, Emeritus Professor, University of Ulster "One of the major strengths of this book is the range of exercises in both drill and applications. Also the 'worked examples' are excellent; they provide examples of the use of mathematics to realistic problems and are easy to follow." —Donal Hurley, formerly of University College Cork "The most comprehensive reader in this topic yet, this book is an essential aid to the avid economist who loathes mathematics!" —Amazon.co.uk**

**students have been successful using books written by these authors. Again, these authors bring you a one semester, undergraduate text that presents the fundamental concepts of managerial accounting in a concise and easy-to-read fashion. This edition retains the same features that made it popular in the previous editions: it gives students all the necessary techniques and concepts of managerial accounting in a focused, concise framework with an excellent pedagogy that's been praised by instructors. It does this by focusing on the tools students need to succeed. Because not all students taking this course may be accounting majors, the authors have focused more on building decision making skills; on how to use accounting information to make quality business decision; and on the tools needed by future managers. Pair this book with our new Managerial Accounting Cases by Carty and Wick for a complete solution for your Managerial Accounting needs.**
