**The Bible in Music** Jul 29 2022 This book explores the relationship between the Bible and the world of music, an association that is recorded from ancient times in the Old Testament, and one that has continued to characterize the cultural self-expression of Western Civilization ever since. The study surveys the emergence of this close relationship in the era following the end of the Roman Empire and through the Middle Ages, taking particular note of the role of Gregorian chant, folk music and the popularity of mystery, morality and passion plays in reflection of the Sacred Scripture and its themes during those times. With the emergence of polyphony and the advent of the Reformation in the sixteenth century, the interaction between the Bible and music increased dramatically, culminating in the evolution of opera and oratorio as specific genres during the Renaissance and the Early Baroque period. Both these genres have proved essential to the interplay between sacred revelation and the various types of music that have come to determine cultural expression in the history of Europe. The book initially provides an overview of how the various themes and types of Biblical literature have been explored in the story of Western music. It then looks closely at the role of oratorio and opera over four centuries, considering the most famous and striking examples and considering how the music has responded in different ages to the sacred text and narrative. The last chapter examines how biblical theology has been used to dramatic purpose in a particular operatic genre – that of French Grand Opera. The academic apparatus includes an iconography, a detailed bibliography and an index of biblical and musical references, themes and subjects.

*Face to Face with Angels* Aug 18 2021 Arch-mediator between the divine and the mundane, the angel is an enduring figure in the Western world. It has been interpreted as an externalization of repressed fantasies, a projection of the self as other, and a metaphor for modern estrangement. This book is the first comparative study of sacred medieval images of angels and their cinematic treatment, including reference to both the medieval and modern imaginations. The text traces the traditional functions of angels and their reworking in film, then takes particular note of new icons like the female angel and others who become models for our connection with transcendence.

**Subtle Bodies** Sep 26 2019 Explores the strategies used by Byzantine artists to represent the incorporeal forms of angels and the rationalizations in defence of their representations mustered by theologians in the face of iconoclastic opposition. These problems of representation provide a window on Late Antique thought.

**Cognitive Psychology in Early Jesuit Scholasticism** Jul 05 2020 Jesuit scholastic philosophy exemplified by the figure of Francisco Suárez (1548–1617) is at present a topic intensively studied worldwide. However, especially in the English speaking academic world, the immediate historical milieu of Suárez's philosophy and theology, constituted especially by the philosophical and theological production of his Jesuit contemporaries, is much less taken into account. In the field of philosophical cognitive psychology, extant especially in the commentaries on Aristotle's *On the Soul*, the present publication aims to partially ameliorate this status quo. All the chapters in this book to some extent give evidence of the theological motivation and theological horizon of the Jesuit cognitive psychology of the last decades of the 16th century and the first decades of the 17th century.

Dante Philomythes and Philosopher Mar 25 2022 This book is devoted to a full and lucid exposition of Boyde's ideas. In the first two parts, the author presents a systematic account of the universe as Dante accepted it, and explains the processes of 'creation' and 'generation' as they operate in the non-human parts of the cosmos. Dr Boyde then shows how the two processes combine in Dante's theory of human embryology, and how this combination affects the issues of love, choice and freedom. The third and last part of the book consolidates these expository sections with a generous selection of quotations from Dante's authorities and from his own works in prose. At the same time, the book offers far more than a clear account of Dante's cosmology and anthropology. Dr Boyde is interested in Dante's ideas in so far as they inspired and gave shape to the Divine Comedy. Furthermore, in every chapter he demonstrates how the relevant concepts and habits of thought were transmuted into imagery, symbolism, and dramatic scenes, or simply transformed by the energy and concision of Dante's poetic style.

**Employability. Per entrare nel mondo del lavoro. Guida pratica per laureandi** Mar 13 2021

EMPLOYABILITY: capacita? di ottenere e mantenere un lavoro soddisfacente. Definizione breve e precisa: ma per un laureando non e? cosi? semplice cercare, trovare e mantenere un lavoro veramente soddisfacente. Il libro propone una serie di domande che il laureando deve farsi e come darsi delle risposte per capire che ruolo cercare, in che tipo di azienda, e dove. Il tutto valutando due fattori che determinano l'employability: Chi sono e come mi presento? Quali sono i miei soft skill, le mie ambizioni? Come posso presentarle e migliorarle? Quali sono i miei limiti e vincoli? Cosa offrono il mercato del lavoro, la ricerca e la libera professione? Quali sono i pro e i contro? Il libro riprende i contenuti di un corso dell'Alma Mater Studiorum – Universita? di Bologna, proposto e tenuto da ASSPECT (Associazione per la Promozione della Cultura Tecnica) e da docenti dell'Ateneo: un esempio, abbastanza raro, di collaborazione tra mondo accademico e industriale.

*Angels* Apr 25 2022 In the 1990s alone, more than 400 works on angels were published, adding to an already burgeoning genre. Throughout the centuries angels have been featured in, among others, theological works on scripture; studies in comparative religions; works on art, architecture and music; philological studies; philosophical, sociological, anthropological, archeological and psychological works; and even a psychoanalytical study of the implications that our understanding of angels has for our understanding of sexual differences. This bibliography lists 4,355 works alphabetically by author. Each entry contains a source for the reference, often a Library of Congress call number followed by the name of a university that holds the work. More than 750 of the entries are annotated. Extensive indexes to names, subjects and centuries provide further utility.
