Académie internationale de la céramique Nov 01 2019 Publié à l'occasion de l'exposition d'oeuvres choisies et envoyées par les membres de l'Académie internationale de la céramique (AIC) qui se tiendra à la Cité de la Céramique de Sèvres du 15 septembre 2010 au 10 janvier 2011. Les expositions de l'AIC (tous les 2 ans au quatre coins du monde) donnent lieu à une publication où sont rassemblés les

débats des assemblées générales et, le regroupement des oeuvres par affinités matérielles et plastiques. Tout membre est sélectionné dans chaque pays par ses pairs, ainsi le lecteur retrouvera les maîtres de la céramique dans un catalogue qui s'apparente à un annuaire de la céramique mondiale. L'intérêt de ce livre est de faire voyager à travers le monde en retrouvant des caractéristiques de "terres du monde" restituant le souffle d'ateliers ancestraux, mais le voyage s'apparente aussi à un circuit parmi les plus grands musées d'art contemporain japonais, américains ou européens.

Piet Mondrian Oct 25 2021 This book presents a comprehensive survey of the work of Piet Mondrian, an artist who has exercised a vast influence on the art of our time - and not only on painting and architecture, but also on the minor arts: interior decoration, furniture design, advertising displays, typography, and book design. Though for many years he was regarded as the most ultra-refined of twentieth-century artists, Mondrian's pervasive presence can now be discerned in innumerable contexts - among them the pages of popular household magazines, the lobbies of apartment houses, and even women's fashions.

Piet Mondrian, 1872-1944 Apr 18 2021 This volume presents Dutch painter Piet Mondrian (1872-1944). His earliest landscapes are rendered in an Impressionistic style but possess the marked vertical and horizontal tendencies that foreshadow his mature paintings. Mondrian's work began to show the influences of Cubism, and in 1912, the artist moved to Paris where he continued to refine his style, continually exploring increasingly sophisticated compositions. In his paintings, Mondrian strove to achieve a universal form of expression by reducing form and color to their simplest components. The artist termed his work "Neo-Plasticism". Mondrian's most well-known works consisted of white ground, upon which was painted a grid of vertical and horizontal black lines and the three primary colors.

The Art of Antiquity Mar 06 2020 The Archives of the American School of Classical Studies' excavations in the Athenian Agora contain a remarkable series of watercolors and drawings - well over 400 - by Piet de Jong, one of the most distinctive and influential archaeological illustrators of the 20th century. They show landscapes, people, and, above all, objects recovered during many seasons of fieldwork at one of the longest continuously running archaeological projects in Greece. The aim of this volume is to bring these illustrations out of the storage drawers and to assemble in color a representative sample of some of the finest of Piet de Jong's works. Along the way, this book tells the story of the Agora excavations and assesses their contribution to scholarship. It includes essays by 15 scholars currently working at the Agora, and surveys the entire span of the material they are studying - from Neolithic pottery to the Late Byzantine and post-Byzantine frescoes from the Church of Ayios Spyridon.

Number Theory Sep 11 2020 This book contains proceedings presented at the fourth Canadian Number Theory Association conference held at Dalhousie University in July 1994. The invited speakers focused on analytic, algebraic, and computational number theory. The contributed talks represented a wide variety of areas in number theory.

Mision en el camino Oct 05 2022 Durante los pasados cincuenta años, el énfasis sobre la práctica y estrategia de la obra misionera ha menoscabado el valor de la importancia de la teología de la misión. Sin embargo, en las últimas décadas teólogos y misiólogos de todas las tradiciones cristianas han comenzado a reexaminar y repensar las suposiciones teológicas que fundamentan la obra misionera. En *Misión en el Camino* Charles Van Engen articula con claridad muchos de los conceptos fundamentales de la teología de la misión. Charles Van Engen, en este volumen, aborda numerosos temas misiológicos centrales. Examina la cuestión de construir teologías en contextos específicos, tales como en la ciudad. También nos muestra tanto los beneficios como las preocupaciones que experimentamos cuando alentamos a los creyentes a teologizar dentro de su propio entorno, cuando tomamos con seriedad el sacerdocio de todos los creyentes. Hace un delineamiento de los debates actuales sobre asuntos levantados por el pluralismo religioso, y batalla con la manera en que podemos proclamar el carácter único de Cristo, sin ser arrogantes y triunfalistas. Echa una mirada al impacto que la modernidad y la posmodernidad están teniendo sobre el movimiento misionero en Occidente, y hace un llamado a la renovación de nuestro compromiso como seguidores de Jesucristo en los duros ambientes culturales de nuestros días. Explora los roles cambiantes de misioneros y ministros en iglesias jóvenes, y levanta preguntas difíciles relacionadas con la unidad de la iglesia en medio de su proliferación, diversidad y fragmentación de carácter global. Son de excepcional valor, la manera en que Van Engen traza la historia de la discusión reciente sobre cada uno de estos asuntos y la riqueza de fuentes bibliográficas que nos presenta para más estudio. Igualmente, importantes son las repuestas que él ofrece a estas cuestiones, respuestas que nos ayudan a movernos más allá de los caminos sin salida que tanto caracterizan nuestro pensamiento actual. (Tomado del Prólogo escrito por Pablo Hiebert.)
