*Stochastic Tools in Mathematics and Science* Nov 23 2021 "Stochastic Tools in Mathematics and Science" covers basic stochastic tools used in physics, chemistry, engineering and the life sciences. The topics covered include conditional expectations, stochastic processes, Brownian motion and its relation to partial differential equations, Langevin equations, the Liouville and Fokker-Planck equations, as well as Markov chain Monte Carlo algorithms, renormalization, basic statistical mechanics, and generalized Langevin equations and the Mori-Zwanzig formalism. The applications include sampling algorithms, data assimilation, prediction from partial data, spectral analysis, and turbulence. The book is based on lecture notes from a class that has attracted graduate and advanced undergraduate students from mathematics and from many other science departments at the University of California, Berkeley. Each chapter is followed by exercises. The book will be useful for scientists and engineers working in a wide range of fields and applications. For this new edition the material has been thoroughly reorganized and updated, and new sections on scaling, sampling, filtering and data assimilation, based on recent research, have been added. There are additional figures and exercises. Review of earlier edition: "This is an excellent concise textbook which can be used for self-study by graduate and advanced undergraduate students and as a recommended textbook for an introductory course on probabilistic tools in science." Mathematical Reviews, 2006

[The Blue Notebook](#) Feb 01 2020 Many writers and artists have undertaken the difficult task of recreating the image of Lenin for their contemporaries and future generations. The Blue Notebook by the well-known Soviet author Emmanuil Kazakevich (1913-1962) has become one of the most popular books about Lenin. A notebook in a blue cover actually did exist. In it Lenin jotted down notes for his famous book State and Revolution which he worked on in the difficult days preceding the Great October Socialist Revolution. At the time Lenin was in hiding at Razliv Station, from where he directed the preparations for the armed uprising. "He was a passionate traveler, a hunter, a crack shot, a top-notch driver, the life of the party, witty and full of fun... Moreover, he was a truly courageous soldier." This portrait of Kazakevich was drawn by his contemporary and colleague, the writer Alexander Tvardovsky. During the Second World War Kazakevich, commander of a platoon, was asked to join the staff of the brigade newspaper. After working on the paper for a short while he asked to be transferred back to the front lines. "The front lines are important to me not only as a patriot, but as a writer," he said. Emmanuil Kazakevich was born in the Ukraine in 1913, the son of a teacher. His first book, a volume of poetry, was published in 1932. He translated the works of Pushkin, Lermontov, and Mayakovsky into Yiddish. Kazakevich's first prose work, The Star, is a harsh, yet sensitive war story which gained him world fame. This was followed by Spring on the Oder, Heart of a Friend, Two in the Steppe, The House on the Square, By the Light of Day and The Blue Notebook, the author's last work. Kazakevich was twice awarded the State Prize for Literature.

**Eastern Inferno** Dec 13 2020 "Remarkable personal journals . . . revealing the combat experience of the German-Russian War as seldom seen before . . . a harrowing yet poignant story" (Military Times). Hans Roth was a member of the anti-tank panzerjäger battalion, 299th Infantry Division, attached to the Sixth Army, as the invasion of Russia began. As events transpired, he recorded the tension as the Germans deployed on the Soviet frontier in June 1941. Then, a firestorm broke loose as the Wehrmacht tore across the front, forging into the primitive vastness of the East. During the Kiev encirclement, Roth's unit was under constant attack as the Soviets desperately tried to break through the German ring. At one point, after the enemy had finally been beaten, a friend serving with the SS led him to a site—possibly Babi Yar—where he witnessed civilians being massacred. After suffering through a brutal winter against apparently endless Russian reserves, his division went on the offensive again when the Germans drove toward Stalingrad. In these journals, attacks and counterattacks are described in you-are-there detail. Roth wrote privately, as if to keep himself sane, knowing his honest accounts of the horrors in the East could never pass Wehrmacht censors. When the Soviet counteroffensive of winter 1942 begins, his unit is stationed alongside the Italian 8th Army, and his observations of its collapse, as opposed to the reaction of the German troops sent to stiffen its front, are of special fascination. Roth's three journals were discovered many years after his disappearance, tucked away in the home of his brother. After his brother's death, his family discovered them and sent them to Rosel, Roth's wife. In time, Rosel handed down the journals to Erika, Roth's only daughter, who had emigrated to America. Roth was likely working on a fourth journal before he was reported missing in action in July 1944. Although his ultimate fate remains unknown, what he did leave behind, now finally revealed, is an incredible firsthand account of the horrific war the Germans waged in Russia.

**A House to Remember** Oct 23 2021 What happened at 10 Rillington Place was so shocking and gruesome that even today everyone over a certain age still remembers the case with a shudder. In 1950, Timothy Evans was hanged for the violent murder of his baby daughter; he was also assumed to have murdered his wife. Then, less than three years later, another tenant, John Christie, was found to have killed at least six women, hiding their bodies in the garden, under floorboards and in a concealed kitchen alcove. Christie followed Evans to the gallows. It seemed unlikely that two murderers were living at 10 Rillington Place, and the evidence that emerged in the Christie case eventually led to Evans receiving a pardon. But there was also circumstantial evidence that Evans had indeed killed his wife and child. Crime student Edna Gammon firmly believes that Evans was guilty. In A House To Remember, she explains why.

**Viva la historieta** Dec 01 2019 ¡Viva la historieta! critically examines the participation of Mexican comic books in the continuing debate over the character and consequences of globalization in Mexico. The focus of the book is on graphic narratives produced by and for Mexicans in the period following the 1994 implementation of the North American Free Trade Agreement (NAFTA), an economic accord that institutionalized the free-market vision of relationships among the United States, Mexico, and Canada. Eight chapters cover a broad range of contemporary Mexican comics, including works of propaganda, romance and adventure, graphic novels, a corporate "brand" series, didactic single-issue books, and a superhero parody series. Each chapter offers an examination of the ways in which specific comics or comic book series represent Mexico's national identity, the U.S.'s influence, and globalization's effects on technology and economics since the passage of NAFTA. Through careful attention to how recent Mexican comics portray a changing nation, author Bruce Campbell reveals a contentious range of perspectives on the problems and promises of globalization. At the same time, Campbell argues that the contrasting views of globalization that circulate widely in Mexican historietas reflect a still unsettled relationship between Mexico and its superpower neighbor.

**Ovid Selected Works** May 30 2022 The compilers, J.C and M.J. Thornton, have used the translations of the sixteenth and seventeenth centuries, which they believe render more faithfully than those of any other age the even clarity of Ovid's style. The volume commences with Marlowe's free translation of The Elegies, which has a youthful zest about it that might well have saved it from oblivion even without Marlowe's later fame. Next comes The Letters of the Heroines, translated by George Turberville, followed by Francis Wolferton's rendering of the three books of The Art of Love, which has had few translators. Wolferton's version is here revised and presented in a way that does not seek to bowdlerize the serious purpose of the book, while retaining the polite urbanity of the original. Arthur Golding's version of The Metamorphoses, which conveys in the swing of the lines and vividness of the language the enthusiasm and enjoyment of the translation, is also included and reminds one that Shakespeare plucked his 'odoriferous flowers of fancy' from its pages. Other selections from this very representative volume include John Gower's translation of The Festivals, Zachary Caitlin's, John Gower's, and Wye Saltonstall's Letters from Exile, and Thomas Underdown's Invective against Ibis.
