**The Book of Paper** Oct 31 2022 In the first volume of Post Editions's new series on the creative potential of seemingly everyday materials, the subject is paper - in amazing depth. This strikingbook asks nine scholars and artists to take a multi-layered look at paper, from its beginnings in second-century China to surprising contemporary approaches. Essay topics include: species of wasps and hornets that make paper and cardboard remarkably similar to our own; the 18th-century German clergyman whose life's work was experimenting with various materials to make paper; and Cardboardia, a community of "visionary architecture." Origami master Paul Jackson writes about "paper music" - using paper as an acoustic medium, and Chiaki Morita introduces washi, the Japanese art of hand-made paper from the mulberry tree. Stunning black and white photos complete this impeccable package.

**Paper Craft Home** Mar 31 2020 Paper craft is given a stunning and contemporary look through these easy-to-make projects for home décor. Transform a simple sheet of paper into something extraordinary! Explore the versatility, beauty, and simplicity of paper. From a geometric paper-folded vase to paper petal lights and a unique paper cuckoo clock, you'll discover 25 projects that use basic materials and easy techniques to create stunning home décor items. Taking inspiration from the shapes and repetition found in architecture and nature, designer and paper-lover Sarah Louise Matthews offers contemporary designs that

will add a creative flair to your home or make for wonderful gifts. With clear step-by-step instructions and beautiful photographs, you'll explore techniques like paper cutting, folding, and engineering to create gorgeous results.

**Comparing Post War Japanese and Finnish Economies and Societies** Jul 24 2019 This book compares two countries with striking parallels in economic and political outcomes, yet with some distinct features in terms of institutional structures, relative size, and culture. Therefore, this book forms a fruitful platform for the study of the similarities and differences in the economic and societal development of Japan and Finland. Despite their geographic distance from one another and the aforementioned differences, both countries experienced rather similar economic and societal development patterns after the Second World War. The study of these societies both individually and through commonalities will provide a unique perspective on the emergence of modern economies and institutions. The book provides comprehensive coverage on issues such as welfare state formation and society, security and military spending, education system, industrial development, international trade, governmental economic policies, energy solutions, and bubbles and their collapse; thus, issues typical for these countries, as well as most modern states, studied from a longitudinal perspective. The book aims to answer a fundamental question in social science: Why do there seem to be common trends and developmental paths among countries differing in size, culture, and economic structure? This book will provide insights for those seeking to decipher how the developments in their own countries came about and where they may be headed to.
