The Secret Life of Books Oct 05 2022 We love books. We take them to bed with us. They

weigh down our suitcases on holiday. We display them on our bookshelves, give them as gifts, write our names in them. We take them for granted. And all the time, our books are leading a double life. *The Secret Life of Books* is about everything that isn't just the words. It's about how books transform us as individuals, the stories they tell us about ourselves. It's about how books - and readers - have evolved over time. And it's about why, even with the arrival of other media, books still have the power to change our lives. In this stylish and thought-provoking meditation, Tom Mole looks at everything from binding innovations to binding errors, to books defaced by lovers, to those imprisoning professors in their offices, to books in art, to burned books, to the books that create nations, to those we'll leave behind. A striking text in a stunning package, it will change how you think about books.

Secrets of a Supernatural World May 08 2020 Revelation From a Near-Death Experience compares elements of Scripture, science, and personal revelation received during a near-death experience, which leads you to understand why things are the way they are, why you are you, and what your earthly and eternal purpose is. With a touch of good humor, uncharted territories are explored, rarely discussed in today's churches, through megabytes of Scriptural and personal revelation. If you have ever wondered any of the following, this book is your answer! If God created the world and He is an all-knowing God, why did He create Lucifer who would rebel against Him and become "the devil"? Why did He create Adam and Eve if He knew they would fail? If God is love, how can He allow evil in the world? Who is Jesus anyway and why would His death "save me"? Don't all religions lead to God? What about the aliens and the UFOs that have supposedly visited us? What about angels and demons; can we see them? Is there such a thing as the "supernatural"? Revelation From a Near-Death Experience provides the answers to life's hardest questions.

Secrets of the Millionaire Mind Aug 30 2019 Secrets of the Millionaire Mind reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking Secrets of the Millionaire Mind, T. Harv Eker states: "Give me five minutes, and I can predict your financial future for the rest of your life!" Eker does this by identifying your "money and success blueprint." We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money—and if somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to create natural and automatic success. Secrets of the Millionaire Mind is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and "revise" it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too!
