OECD Survey of Upper Secondary Schools Technical Report Jul

30 2022 The International Survey of Upper Secondary Schools

(ISUSS) was established to determine how successful upper secondary schools are in preparing young adults for life. This publication describes the methodology of the survey and allows researchers to understand and replicate its analyses.

Noter til kemi C Aug 31 2022 Danske elever og kursister

undervises for sj ldent i EFFEKTIVE (dvs.

hukommelsesforst rkende) STUDIETEKNIKKER. De er derfor

ofte overladt til at benytte selvopfundne og mindre gode metoder,

n r de fors ger at huske pensummet - fx genl sning eller afskrift

af teksten. Bl.a. derfor har mange kemi C elever/kursister sv rt

ved at huske det teoretiske stof og eksperimenter. Vores bog

fors ger at afhj lpe det ovenst ende problem, idet der er

integreret indl ringsforst rkende metoder i teksten - fx aktiv

genkaldelse (selverh ring) og husketeknikker

(mnemoteknikker). Vi gennemg r desuden andre effektive

studieteknikker og r dgiver ang ende eksamensforberedelser.

Teknikker og r d som kan bruges i andre fag end kemi. De

anbefalede metoder tager afs t i forskning fra

indl ringspsykologien (kognitiv psykologi) samt egne erfaringer.

Vocational Education and Training in Denmark Aug 26 2019

Denmark has a uniform, nationwide vocational education and training (VET) system that provides qualifications that are valid throughout the country and recognized by employers and trade unions. Initial VET (IVET) includes the following components: VET, including commercial and technical training; basic social and health care training; agricultural training; and maritime training. All IVET programs teach the vocational skills necessary for a trade or profession and give access to higher education. Periods of school IVET alternate with periods of in-company training based on apprenticeship contracts. Continuing VET is provided primarily through Denmark's labor market training system (arbejdmarkedssuddannelserne [AMU]), which is designed to give, maintain, and improve participants' vocational skills in accordance with enterprises' needs and background. AMU courses take place exclusively at vocational schools and 24 independent AMU centers. Tertiary VET, consisting of short, vocationally oriented programs, and open education programs are

also offered at vocational schools. IVET and tertiary VET are under the auspices of the Ministry of Education, whereas AMU is under authority of Denmark's Ministry of Labour. Active participation by social partners is a central element of Denmark's VET system. A list of acronyms, the addresses of 9 relevant organizations, and a bibliography of 32 online and print resources are appended. (Contains 15 figures.) (MN).

primary and lower secondary education. Chapter 3 covers upper secondary education including academic and vocational programs. Chapter 4 discusses advanced technical and vocational education and describes three sample programs. Chapter 5 is on tertiary education including universities, other tertiary institutions, degree structure, degrees offered, professional education, open universities, diplomas and practice, the academic year, language of instruction, admission, grading, transcripts, faculty titles, facilities, the Danish Research Academy, and five university profiles. Chapter 6 discusses specialized tertiary education by field of study. Chapter 7 describes medical training for 19 areas of specialization. Chapter 8 explains teacher education. Chapter 9 covers study abroad and internationalization in education. Chapter 10 contains the recommendations and guidelines for admissions officers on admitting and placing Danish students in institutions in the United States. Appendixes contain a list of approved vocational education courses, a list of engineering colleges offering degrees, a list of tertiary degrees, and information on the National Council on the Evaluation of Foreign Educational credentials. Includes a glossary and an index. (JB)
