The Pragmatist's Guide to Life Jun 01 2022 As humans, we get to choose what we believe and who we want to be. This book is a ruthlessly pragmatic guide to creating your own answers to life's biggest questions. Each of this book's four chapters covers one of the most important questions a person must ask themselves: "What is the purpose of my life? How can I best realize the purpose of my life? Who do I want to be? How do I want other people to think of me?" Rather than give you answers to these questions, this guide provides a framework that helps you develop your own answers while equipping you with the neuroscientific tools necessary to transform yourself into whomever you choose to be. If you are looking for a light read that will make you feel good about yourself, this isn't the book for you. If you want to take the time to think hard, take full ownership of the person you have allowed yourself to become, and permanently transform yourself into the best iteration of that person then you have found your book.

The Total Question Workout Jul 30 2019 Here's the one-minute description of TQW: You have a Big Question of some kind. You know it's a Big Question because it's keeping you up at night, the outcome is important, and you don't have a ready answer. There are four stages you need to go through to answer a Big Question. I don't know where you are in the process; so let me describe the four stages. The first stage involves fully understanding your situation and your motives for wanting to resolve the question that comes from being in that situation. The second stage involves separating yourself from the situation you are in. You cannot resolve a situation if you see yourself as part of it. You have to gain perspective by separating yourself from your situation in as many ways as possible. The third stage involves letting go of something that keeps you attached to, and subject to, the situation you are in. Something is holding you back. Some fear, some projection of implications, some belief about what is possible and what is not possible. Something. As long as you hold onto these things they will hold you back.
