Torrent (Free Dark Romance) Sep 26 2022 I was fifteen when I sent the love of my life to prison for a crime he didn't commit. Back then Rafe was my brother's best friend and off-limits, but that didn't stop me from drooling over him. I've never forgotten the guy whose green eyes made me weak in the knees. From a Trickle to a Torrent Jan 23 2022 What happens to a community when the majority of young people leave their homes to pursue an education? From a Trickle to a Torrent documents the demographic and social consequences of educational migration from Nubri, a Tibetan enclave in the highlands of Nepal. The authors explore parents' motivations for sending their children to distant schools and monasteries, social connections that shape migration pathways, young people's estrangement from village life, and dilemmas that arise when educated individuals are unable or unwilling to return and reside in their native villages. Drawing on numerous decades of research, this study documents a transitional period when the future of a Himalayan society teeters on the brink of irreversible change.

NETWORKING 2010 Nov 16 2021 This book constitutes the refereed proceedings of the 9th IFIP-TC6 Networking Conference, Networking 2010. Papers were solicited in three broad topic areas: applications and services, network technologies, and internet design. All papers were considered on their merits by a unified Technical Program Committee (TPC); there was no attempt to enforce a quota among topic areas. We believe the resulting program is an excellent representation of the breadth of recent advances in networking research. This year, the conference received 101 full paper submissions from 23 countries on 2 continents, reflecting a strong diversity in the networking community. Similarly, the 92 members of the TPC are from 21 countries and include a mix of academic, industry, and governmental affiliations. The TPC members, aided by some 50 external reviewers, provided a total of 470 reviews and follow-up discussions totaling more than 200 messages. The final selections were made at a TPC meeting hosted by Columbia University in New York City, with both in-person and remote participation. In total, authors of accepted papers have academic and industry affiliations in 15 countries. We finally selected 24 papers for presentation during the conference technical sessions. A small number of papers were assigned a shepherd from the TPC to assist in paper revision. These statistics represent an acceptance rate of just under 24%, comparable to that of previous years. The TPC also identified several papers that reflect particularly promising early results: these papers were selected for presentation as work-in-progress papers and are identified as such in the proceedings.
