[Haunting Bollywood](#) Feb 10 2021 Haunting Bollywood is a pioneering, interdisciplinary inquiry into the supernatural in Hindi cinema that draws from literary criticism, postcolonial studies, queer theory, history, and cultural studies. Hindi commercial cinema has been invested in the supernatural since its earliest days, but only a small segment of these films have been adequately explored in scholarly work; this book addresses this gap by focusing on some of Hindi cinema's least explored genres. From Gothic ghost films of the 1950s to snake films of the 1970s and 1980s to today's globally influenced zombie and vampire films, Meheli Sen delves into what the supernatural is and the varied modalities through which it raises questions of film form, history, modernity, and gender in South Asian public cultures. Arguing that the supernatural is dispersed among multiple genres and constantly in conversation with global cinematic forms, she demonstrates that it is an especially malleable impulse that routinely pushes Hindi film into new formal and stylistic territories. Sen also argues that gender is a particularly accommodating stage on which the supernatural rehearses its most basic compulsions; thus, the interface between gender and genre provides an exceptionally productive lens into Hindi cinema's negotiation of the modern and the global. Haunting Bollywood reveals that the supernatural's unruly energies continually resist containment, even as they partake of and sometimes subvert Hindi cinema's most enduring pleasures, from songs and stars to myth and melodrama.

[The Evolution of Song and Dance in Hindi Cinema](#) Jul 06 2020 Exploring the evolution of song and dance in the popular Hindi film, this book examines how these quintessential elements have been and continue to be theorized. As song 'picturizations', as they are frequently called, have evolved, shifting from little more than impromptu moves around tree trunks to highly choreographed affairs featuring scores of professional

dancers and exotic backgrounds, their theorization has also developed beyond the initial, peremptory dismissals of earlier critics. Featuring a landmark collection of essays from leading theorists, as well as newer contributions from up-and-coming scholars, this book develops new and exciting ways of thinking about song and dance in Hindi cinema and, in turn, explores how these elements work to (re)define popular Hindi cinema in the twenty-first century. This collection will be of interest to students and scholars of Hindi cinema, musicals, and global popular cultures. It was originally published as a special issue of *South Asian Popular Culture*.

Motion events in Hindi Sep 27 2019 Seminar paper from the year 2002 in the subject Speech Science / Linguistics, grade: A-, Stanford University (Linguistics Department), course: Lexical semantics LIN233, 3 entries in the bibliography, language: English, abstract: This squib provides a short introduction into Hindi syntax, as far as it seems to be relevant for the grammaticalization of motion events in Hindi, and a summary of the most striking facts about the way Hindi grammaticalizes motion events. Within Talmy's (1985) terminology, Hindi probably is one of the clearer cases of a PATH language. Except for some (supposedly frequently used) MANNER encoding verbs like e.g. 'run', the notion of PATH can only be evoked by PATH-verbs. The set of MANNER-verbs that are compatible with the notion of PATH seems to only contain MANNER-verbs that can be observed to be compatible with a PATH interpretation in other (PATH)-languages (cf. Eve Clark, p.c.).

XP-adjunction in Universal Grammar Jan 12 2021 One of the most hotly debated phenomena in natural language is that of leftward argument scrambling. This book investigates the properties of Hindi-Urdu scrambling to show that it must be analyzed as uniformly a focality-driven XP-adjunction operation. It proposes a novel theory of binding and coreference that not only derives the coreference effects in scrambled constructions, but has important consequences for the proper formulation of binding, crossover, reconstruction, and representational economy in the minimalist program. The book will be of interest not only to specialists in Hindi-Urdu syntax and/or scrambling, but to all students of generative syntax.

**Perso-Arabic Hybrids in Hindi** Oct 09 2020 From the very beginning of its existence Hindi has been subjected to foreign influences. Close contact with Persian brought to India by Muslim invaders, lasting for several centuries, has borne fruit in the form of an enormous quantity of borrowings of different types. It has also reached the most advanced stage in the whole process of enriching one language by the elements of the other -- the phenomenon of hybridisation, creating words of mixed Perso-Hindi etymology, has appeared. Though hybrid words exist probably in every language, in Hindi their role is particular. They demonstrate its extraordinary ability for syncretising new, alien components without much harm to itself. The main aim of this book is to show the scale of hybrid Perso-Arabic word-formation in Hindi and to discuss the factors that have been influencing this hybridisation. The features and linguistic processes crucial to it have also been pointed out.

**Genitive in Hindi** Sep 07 2020 Linguists and philosophers have attempted different theoretical models to formalize the structural properties and the various uses of the genitives. Consequently, a large number of works listing the different uses of genitives are attested in different languages of the world. The works done from diachronic perspectives are as interesting and open as those done from synchronic perspectives. However, in spite of the attention that the issue of genitives has received in the linguistics tradition, the issue remains open. I have attempted to examine Hindi genitives from the point of view of their treatment in ancient traditional grammars in Indian and Westerns grammatical traditions as well as the way they have been approached in the modern linguistics theories. I have briefly outlined the approaches that ancient grammarians took with regards to the forms and functions of the genitive constructions. In this context, I have cited both Indian and Western grammarians. In the modern linguistics approaches, I discuss works of

traditional Hindi grammarians and modern generative linguists. I have specially taken the core assumptions of Chomskyan Case Theory within the principles and Parameters framework of linguistics to examine the internal structure and the syntactic operations within the genitive constructions in Hindi.

**Global Bollywood** Jul 26 2019 Bollywood movies and their signature song-and-dance spectacles are an aesthetic familiar to people around the world, and Bollywood music now provides the rhythm for ads marketing goods such as computers and a beat for remixes and underground bands. These musical numbers have inspired scenes in Western films such as *Vanity Fair* and *Moulin Rouge*. Global Bollywood shows how this currency in popular culture and among diasporic communities marks only the latest phase of the genre's world travels. This interdisciplinary collection describes the many roots and routes of the Bollywood song-and-dance spectacle. Examining the reception of Bollywood music in places as diverse as Indonesia and Israel, the essays offer a stimulating redefinition of globalization, highlighting the cultural influence of Hindi film music from its origins early in the twentieth century to today.
