In consideration of

today's classroom dynamics and the changes coming to the 2015 MCAT, this revision offers a completely new design with enhanced art throughout, reorganization of materials to reinforce fundamental skills and facilitate more efficient studying.

**Java Software Solutions, Global Edition** Sep 29 2022 For courses in Java programming Java Software Solutions establishes a strong foundation of programming

techniques to foster well-designed object-oriented software. Heralded for its integration of small and large real-world examples, the worldwide best-selling text emphasises problem-solving and design skills and introduces students to the process of constructing high-quality software systems. The 9th Edition features a sweeping overhaul of Graphics Track coverage, to fully embrace the JavaFX API. This fresh

approach enriches programmers' understandings of core object-oriented principles. The text uses a natural progression of concepts, focusing on the use of objects before teaching how to write them--equipping students with the knowledge and skill they need to design true object-oriented solutions.

*Ethical Problem-Solving and Decision-Making for Positive and Conclusive Outcomes* Jun 22 2019 Strategies for effective problem-solving and decision-making are efficient ways for professionals to solve the moral dilemmas that confront them in their daily practice. Feelings of

wellbeing and positive outcomes, often impeded by the failure to make decisions, can result when strategies are developed from psychological theories and positive mindsets. Ethical Problem-Solving and Decision-Making for Positive and Conclusive Outcomes is a pivotal reference source that synthesizes major psychological theories to show that any moral dilemma can be solved by using the correct positive mindset based on psychological theory and superimposing a basic ethical template to reach a conclusive decision. While highlighting topics such as cultural identity, student engagement, and education standards, this book

**Introduction** Feb 29 2020

Distinguished by its focus on the development of the helper, its experiential emphasis, and the unique use of personal vignettes, Neukrug's easy-to-understand and comprehensive text provides an overview of the field of human services. It begins with discussions of history and current issues, followed by a chapter on standards as they relate to skills, credentialing, ethics, and accreditation. The book later

moves on to cover important content areas that human service professionals must know and understand to be effective, including counseling theory, helping skills, group and family counseling, consultation and supervision, community organizing, human development, cultural competence, how to work with varied client populations, and research, evaluation, and assessment. The last chapter focuses on career development, including guidance about further education and insight into how career development models can be applied to the student and the student's clients.
