Fit for Growth Mar 06 2020 A practical approach to business transformation Fit for Growth* is a unique approach to business transformation that explicitly connects growth strategy with cost management and organization restructuring. Drawing on 70-plus years of strategy consulting experience and in-depth research, the experts at PwC's Strategy& lay out a winning framework that helps CEOs and senior executives transform their organizations for sustainable, profitable growth. This approach gives structure to strategy while promoting lasting change. Examples from Strategy&'s hundreds of clients illustrate successful transformation on the ground, and illuminate how senior and middle managers are able to take ownership and even thrive during difficult periods of transition. Throughout the Fit for Growth process, the focus is on maintaining consistent high-value performance while enabling fundamental change. Strategy& has helped major clients around the globe achieve significant and sustained results with its research-backed approach to restructuring and cost reduction. This book provides practical guidance for leveraging that expertise to make the choices that allow companies to: Achieve growth while reducing costs Manage transformation and transition productively Create lasting competitive advantage Deliver reliable, high-value performance Sustainable success is founded on efficiency and high performance. Companies are always looking to do more with less, but their efforts often work against them in the long run. Total business transformation requires total buy-in, and it entails a series of decisions that must not be made lightly. The Fit for Growth approach provides a clear strategy and practical framework for growth-oriented change, with expert guidance on getting it right. *Fit for Growth is a registered service mark of PwC Strategy& Inc. in the United States

Ultimate Guide to Forming an LLC in Any State, Second Edition Nov 25 2021 Invaluable Insight into LLCs Featuring updated forms and financial templates now available via download, this comprehensive toolkit provides step-by-step instructions for planning, organizing, forming, operating and maintaining a limited liability company (LLC) in any state. LLCs are one of the most flexible business formations available and for many businesses, offer the best of both worlds. As in partnerships, taxation passes through to the business, avoiding the double taxation problem with corporations. And like corporations, LLCs offer liability protection for owners and their assets. However, LLCs aren't for everyone. To help you make an informed decision, business legal guru Michael Spadaccini provides invaluable insight, offering tips from the pros, practical experience and lists of advantages and disadvantages. This hands-on reference offers: Instructions on how to start and maintain an LLC, including detailed requirements for every state The pros, cons, and uses of different business formations - including LLCs, corporations, sole proprietorships, and partnerships Details on how and when LLCs are best used for minimizing taxes, increasing liability protection and shielding assets Contact information and summaries of incorporation laws for the 50 states and Washington, DC, including requirements and costs for creating LLCs.

An Estate Planner's Guide to Family Business Entities Jun 20 2021 "This fourth edition to An Estate Planner's Guide to Family Business Entities brings the second edition current through December 1, 2019 and is designed for the estate planner who is considering the most appropriate way to achieve his or her client's goal of transferring wealth to younger family members. Although it covers both tax and nontax considerations, its major emphasis is on the tax considerations, covering choosing the business entity and comparing the various entities that are available; highlighting recent developments concerning choice of entity; covering the application of the special valuation rules and other transfer tax issues, as well as the use of a grantor retained annuity trust to reduce the value of the gift when transferring an interest in a family-held entity, are discussed"--

The Corporate Citizen Nov 01 2019 The interest in good governance has grown tremendously in the past decade. Corporate scandals, environmental awareness and globalisation have all played their part in raising shareholder and public awareness in how companies should be governed. King provides a history and clear definition of corporate governance. This is followed by essential reading on the duties of directors and the chairman; the five 'corporate sins'; a framework of corporate governance; the relationship between the company and its directors; risk and governance; asking the 'dumb questions'; a code of conduct; and self-evaluation. This book is essential reading for directors and managers, shareholders and stakeholders, and business students. In addition, the principles set forth are equally applicable to non-business entities such as school governing bodies, sports and cultural organisations, non-governmental organisations and government departments.

California Transactions Forms Dec 27 2021 Consists of 11 modules: Business entities 6 v. [Uniform Commercial Code; Real property; Leases; Consumer protection; Assignments; Contracts; Personal property; Nonprofit organizations; Family law; and: Estate planning].

Introduction to Business Dec 03 2019 Introduction to Business covers the scope and sequence of most introductory business courses. The book provides detailed explanations in the context of core themes such as customer satisfaction, ethics, entrepreneurship, global business, and managing change. Introduction to Business includes hundreds of current business examples from a range of industries and geographic locations, which feature a variety of individuals. The outcome is a balanced approach to the theory and application of business concepts, with attention to the knowledge and skills necessary for student success in this course and beyond.

The Governance of Close Corporations and Partnerships Mar 18 2021 This book examines the limited liability business forms that have recently emerged, and seeks to identify the forces that have led to the emergence of new business forms for small and medium-sized businesses. Focusing on the US, UK, and continental Europe, the contributors analyse the Limited Liability Company, the Limited Liability Partnership, and the new business forms proposed in Europe.

Selecting & Forming Business Entities Jul 22 2021

Taxation of Individuals and Business Entities, 2010 edition Mar 30 2022 The basic approach to teaching taxation hasn't changed in decades. Today's student deserves a new approach. McGraw-Hill's Taxation of Individuals and Business Entities is a bold and innovative new textbook that's already generating enthusiasm across the country. McGraw-Hill's Taxation Series is designed to provide a unique, innovative, and engaging learning experience for students studying taxation. The breadth of the topical coverage, the storyline approach to presenting the material, the emphasis on the tax and nontax consequences of multiple parties involved in transactions, and the integration of financial and tax accounting topics make this book ideal for the modern tax curriculum.

Ultimate Book of Forming Corps, LLCs, Partnerships & Sole Proprietorships Aug 23 2021

An Introduction to Business Entities Jan 04 2020 This text is designed with the AICPA model tax curriculum in mind, and presents the introductory federal taxation course from a business entity perspective. The 2002 Edition of An Introduction to Business Entities provides thorough and adequate coverage of all relevant codes and regulations, emphasizing the high-interest and multidisciplinary aspects of taxation. This text is an ideal fit for the program that offers only one course in taxation where students need to be exposed to corporate taxation as well as individual taxation. This text assumes no prior course in taxation has been taken.

Accountants' Guidebook Dec 15 2020 The accountant is responsible for many activities, which may require years of training and experience to fully comprehend. The breadth of knowledge required can seem overwhelming. The Accountants' Guidebook is designed to simplify matters by providing the accountant with a practical knowledge of how to complete many accounting tasks, while also imparting an understanding of the more critical accounting standards. Topics covered include accounting procedures, GAAP for common transactions, closing the books, producing financial statements and other reports, collection tactics, payroll management, budgeting, and much more. In short, this is the essential desk reference for the accountant.

Business Organizations for Paralegals Jan 28 2022 Business Organizations for Paralegals thoroughly covers all the various types of business organizations, providing a solid and up-to-the minute understanding of each entity. There is more in-depth treatment of Limited Liability Partnerships and Limited Liability Companies than in any other text, and an entire chapter is devoted to securities regulation. Designed for the paralegal student, Business Organizations for Paralegals relies on a clear and direct presentation, and each chapter includes features--both conventional and Internet-based--that help students prepare for real-life paralegal work. The massively revised Sixth Edition features new and updated charts demonstrating key principles of business organizations. The content reflects major developments such as the new social enterprises that combine profit-making with social good; the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010; new trends in corporate governance; and the impact of new algorithmic or high-frequency trading of stocks as well as the part it may have played in the Wall Street "flash crash" of 2010. Proposed revisions to securities regulations that would make raising capital easier for smaller companies (e.g. crowdfunding) is covered as well as the trend toward "reverse mergers" to avoid regulatory oversight. Other new topics include the continuing effect of the 2008 financial crisis, new constituency statutes, and new DB(k) retirement plans. Features: thorough and up-to-date treatment of all types of business organizations the nature of the entity formation and dissolution tax consequences clear presentation designed for the paralegal student a section explaining the tasks performed by paralegals a guide to both conventional and Internet resources forms, discussion questions, and summary of key features useful exhibits, charts, and key terms more in-depth treatment of Limited Liability Partnerships and Limited Liability Companies than other texts an entire chapter devoted to securities regulation sample forms integrated throughout the text Web resources Practice Tips in each chapter Internet questions, requiring students to access websites they will use on the job Thoroughly updated, the revised Sixth Edition features: new social enterprises that combine profit-making with social good the financial crisis of 2008 and its continuing effects Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 new trends in corporate governance the SEC's notice and access rules e-proxy provisions electing directors by majority rather than plurality vote new algorithmic or high-frequency trading of stocks and the part it may have played in the Wall Street "flash crash" of 2010 proposed revision to securities regulations to make raising capital easier for smaller companies, e.g. crowdfunding the trend toward "reverse mergers" to avoid regulatory oversight constituency statutes that require directors to consider more than pure profit new DB(k) retirement plans

Keatinge and Conaway on Choice of Business Entity Nov 06 2022

Unincorporated Business Entities Aug 03 2022 The rapid proliferation of unincorporated business forms has moved beyond the scope of traditional Corporations and Agency/Partnership courses and textbooks, which leaves students without the necessary knowledge to competently advise business clients. Unincorporated Business Entities was designed to fill that widening gap in the existing curriculum. Unincorporated Business Entities is designed for a three-semester-hour course and has the following features: • Like its predecessors, the new edition of Unincorporated Business Entities takes a business planning approach to teaching the modern law of partnerships and other unincorporated firms. • The material on LLCs has largely been rewritten, reflecting the rapid development in this form over the last several years. • Each chapter contains new and updated notes and problems that provide a "hands-on" approach to the consequences of, and planning and drafting for, issues in agency, partnership, limited partnerships, LLCs, and limited liability partnerships. • The materials on partners' financial rights now include a short primer on financial accounting. The Teacher's Manual is almost six-fold expanded from previous versions. It contains approaches to organizing classes, synopses of all the cases, lecture outlines, proposed questions and answers, discussions of answers to all the problems, diagrams of the complex cases, and flow charts of complex statutory analysis in areas like partnership dissolution and winding up. The Appendix also contains the partnership, limited partnership, and limited liability company statutes you will need for reference purposes.

Establishing a Business in Mexico Apr 18 2021

A Research Agenda for Corporations Jul 10 2020 This exciting Research Agenda offers a multi-disciplinary and historically informed programme for the further investigation of the global political economy of the corporate sector. It tackles the question, can and should the corporation be reformed? Christopher May develops a range of intersecting areas for research while also offering an account of the possibilities for the reform of the global corporation.

The Anatomy of Corporate Law May 20 2021 This is the long-awaited second edition of this highly regarded comparative overview of corporate law. This edition has been comprehensively updated to reflect profound changes in corporate law. It now includes consideration of additional matters such as the highly topical issue of enforcement in corporate law, and explores the continued convergence of corporate law across jurisdictions. The authors start from the premise that corporate (or company) law across jurisdictions addresses the same three basic agency problems: (1) the opportunism of managers vis-à-vis shareholders; (2) the opportunism of controlling shareholders vis-à-vis minority shareholders; and (3) the opportunism of shareholders as a class vis-à-vis other corporate constituencies, such as corporate creditors and employees. Every jurisdiction must address these problems in a variety of contexts, framed by the corporation's internal dynamics and its interactions with the product, labor, capital, and takeover markets. The authors' central claim, however, is that corporate (or company) forms are fundamentally similar and that, to a surprising degree, jurisdictions pick from among the same handful of legal strategies to address the three basic agency issues. This book explains in detail how (and why) the principal European jurisdictions, Japan, and the United States sometimes select identical legal strategies to address a given corporate law problem, and sometimes make divergent choices. After an introductory discussion of agency issues and legal strategies, the book addresses the basic governance structure of the corporation, including the powers of the board of directors and the shareholders meeting. It proceeds to creditor protection measures, related-party transactions, and fundamental corporate actions such as mergers and charter amendments. Finally, it concludes with an examination of friendly acquisitions, hostile takeovers, and the regulation of the capital markets.

SOA Principles of Service Design May 08 2020 The Definitive Guide to Service Engineering The key to succeeding with service-oriented architecture (SOA) is in comprehending the meaning and significance of its most fundamental building block: the service. It is through an understanding of service design that truly "service-oriented" solution logic can be created in support of achieving the strategic goals associated with SOA and service-oriented computing. Bestselling SOA author Thomas Erl guides you through a comprehensive, insightful, and visually rich exploration of the service-orientation design paradigm, revealing exactly how services should and should not be designed for real-world SOA.

Gilbert Law Summaries, Taxation of Business Entities Jun 08 2020 This outline discusses taxation of partnerships, including current partnership income, contributions of property to partnership, sale of partnership interest, distributions, and liquidations, as well as the taxation of corporations, including formation, corporate distributions, sales of stock and assets, and reorganizations, S corporations. The book has been updated to include discussion of the special taxation of Qualified Business Income and other changes adopted as part of the 2017 Tax Cuts and Jobs Act.

The Economics and Financing of Media Companies Apr 06 2020 In this updated and expanded edition of the acclaimed *Economics and Financing of Media Companies*, leading economist and media specialist Robert G. Picard employs business concepts and analyses to explore the operations and activities of media firms and the forces and issues affecting them. Picard has added new examples and new data, and he covers such emerging areas as the economics of digital media. Using contemporary examples from American and global media companies, the book contains a wealth of information, including useful charts and tables, important for both those who work in and study media industries. It goes beyond simplistic explanations to show how various internal and external forces direct and constrain decisions in media firms and the implications of the forces on the type of media and content offered today.

Groups of Companies Feb 03 2020 This book presents a comprehensive study on how twenty-three countries have approached the issue of company groups. In addition to detailed profiles of each country's legislation, written by some of the most respected experts in the field, the book also presents a general overview and offers readers an in-depth, up-to-date and highly practical comparative analysis of the company group phenomenon in connection with national legal regimes. As such, the book is a must-read for all those seeking a deeper understanding of how company groups are viewed and regulated around the globe.

Philippines Business Oct 01 2019 An encyclopedic view of doing business with the Philippines. Contains the how-to, where-to and who-with information needed to operate internationally.

Cases and Materials on Corporations and Other Business Entities Jul 02 2022 A practical approach to Corporations featuring carefully edited cases, intriguing notes and questions, and exercises drawn from actual cases to create a practical and skills-driven approach to the study of the legal principles of business. Featuring: Each chapter includes all the landmark cases that students should be introduced to in a Corporations or Business Entities course Strong skills-driven exercises and questions (both litigation-based and transaction-based) the practical exercises give students a chance to simulate what lawyers do the exercises are drawn from actual disputes, particularly from material in the case's procedural history, publicly-available information about the dispute, and other information provided from the actual lawyers on the case Brief notes and questions after cases, including some with practice-orientation Diagrams, or Roadmaps are included to give students an illustrative snapshot of some of the toughest cases. This text obviates the need for law professors interested in skills training to rely on supplemental texts or creating their own materials Companion website that includes supplemental introductory cases (with notes and questions) to enable use of the casebook by MBA and undergraduate students

The Law of Business Structures Nov 13 2020 The law of business structures provides a comprehensive but simplified treatment of the different types of business structures in South African law. The book examines the law of partnerships, business trusts, close corporations and companies, whether large or small, and whether formed for a profit-making or a non-profit-making objective. The chapters on company law provide a detailed discussion and explanation of core company law topics. Discussions of modern corporate governance best practices, insider trading and market manipulation are also included. Excessive theoretical analysis has been avoided, but important legal concepts and principles are nevertheless carefully explained and analysed. Case law and references to legislation have been kept to a minimum, but discussions of the important cases and relevant legislation are included.--Résumé de l'éditeur.
