Anabaptists and the Sword Sep 27 2019 Anabaptists and the Sword (1972; revised edn. 1976) is the first book to challenge the consensus, dating from the seventeenth century, that sixteenth-century Anabaptists were nonresistants, or Christian pacifists. While recognizing the importance of the nonresistance tradition among Anabaptists, the book gives equal attention to more militant elements in Anabaptism. It is also pioneering in giving attention to Anabaptist practice as well as Anabaptist teaching on this subject.

MagIc Golden Sword Dec 23 2021 LORDS WITH SPEARS is the first part of a series called MagIc Golden Sword. It is a story about the long-time peaceful people of an imaginary country of Burunga, who received an influx of Spear refugees from neighbouring Dandy. The Spears were ruthlessly vanquished in a tribal war with the Lords over the possession of Dandy, and the Rungans opened camps to cater to the newcomers, even in spite of the opposition to the idea by Colm Djandhi, the young son of Melchior Djandhi, Burunga's president. In the camps, the Spears plot to take control of Burunga, validating Colm's fears. But by then it was too late. Eventually, they attack the palace, remove the president, and kill members of his cabinet. They occupy Burunga and establish a powerful kingdom there. Still, the usurpers are missing a critical element of rule: in the Burunga tradition, one cannot hold real power without the golden sword, now in Colm's possession. In Lords with Spears, we find a story of humans against humans, humans against nature, brotherhood, and solidarity. There is a revelation here that weakness can be strength, as can unity. The book thrums with horror, crisis, tribal wars, and the profound satisfaction that comes with conflict resolution.

Flashman and the Golden Sword Oct 21 2021 Of all the enemies that our hero has shrunk away from, there was one he feared above them all. By his own admission they gave him nightmares into his dotage. It was not the French, the Spanish, the Americans or the Mexicans. It was not even the more exotic adversaries such as the Iroquois, Mahratta or Zulus. While they could all make his guts churn anxiously, the foe that really put him off his lunch were the Ashanti. "You could not see them coming," he complained. "They were well armed, fought with cunning and immense savagery and above all, there were bloody thousands of the bastards." This eighth packet in the Thomas Flashman memoirs details his misadventures on the Gold Coast in Africa. It was a time when the British lion discovered that instead of being the king of the jungle, it was in fact a crumb on the lip of a far more ferocious beast. Our 'hero' is at the heart of this revelation after he is shipwrecked on that hostile shore. While waiting for passage home, he is soon embroiled in the plans of a naïve British governor who has hopelessly underestimated his foe. When he is not impersonating a missionary or chasing the local women, Flashman finds himself being trapped by enemy armies, risking execution and the worst kind of 'dismemberment,' not to mention escaping prisons, spies, snakes, water horses (hippopotamus) and crocodiles. It is another rip-roaring Thomas Flashman adventure, which tells the true story of an extraordinary time in Africa that is now almost entirely forgotten.

The Crimson Fairy Book Jun 04 2020 There was once a king's son who told his father that he wished to marry. 'No, no!' said the king; 'you must not be in such a hurry. The prince was much disappointed, but he never dreamed of disobeying his father, and he began to think with all his might what he could do. It was no use staying at home, so one day he wandered out into the world to try his luck, and as he walked along he came to a little hut in which he found an old woman crouching over the fire.

Gold Juno Sword Apr 02 2020 This is the final volume of a comprehensive five part work, including a multitude of personal accounts of every aspect of the aerial operations on 'Gold' 'Juno' and 'Sword' beaches during D-Day. It relays the sense of relief experienced as Allied troops gained a foothold on the continent of Europe after D-Day, both by the men caught up in the proceedings and the jubilant civilians on the home front. By the end of June 875,000 men had landed in Normandy; 16 divisions each for the American and British armies. Although the Allies were well established on the coast and possessed all the Cotentin Peninsular, the Americans had still not taken St Lo, nor the British and Canadians the town of Caen, originally a target for D-Day. German resistance, particularly around Caen was ferocious, but the end result would be similar to the Tunisian campaign. More and more well-trained German troops were thrown into the battle, so that when the Allies did break out of Normandy, the defenders lost heavily and lacked the men to stop the Allied forces from almost reaching the borders of Germany. In continuing style, Bowman pays respect to the men who fought in the skies above France on D-Day. This episode of Aviation history has never before been the focus of such detailed analysis; the five volumes of this series act as a memorial to the individuals who played their own individual parts in the wider proceedings. Far from being a mere operational record, this is the story of the men behind the headlines, the reality behind the iconic images of parachute drops and glider formations.

The Man with the Golden Sword Aug 19 2021 The Man With The Golden Sword "John B. Leith was 26 years old when WW II was over and he left the service of the allied forces in Europe. He described 12 of his 62 missions behind enemy lines rescuing German prisoners. He was ordered not to acknowledge any of his combat service until after his death (1998). Finally his story is told. Several of his missions involved sacred relics of the Christian era. They seemed to protect his team in the ongoing struggle between the forces of good and evil." Donald M. Ware, Lt. Col. USAF (Ret), MSNE "I treasure my fascinating relationship with a man of courage and competence writing about his own experience but unable to be recognized for his great service and valor while alive. Each chapter is a "mission impossible," a true-life drama rivaling "Raiders of the Lost Ark." He showed no fear for his life or welfare. He developed a sense of spiritual protection." Robyn C. Andrews, Regression Therapist, Researcher, Author "Certainly, The Man with the Golden Sword is one of the most riveting accounts of an American World War II hero I have read. These once classified missions by John B. Leith are now revealed. His heroism is unequalled. This book is a must read for all of us who want to know the hidden valor and courage of those who fought so bravely." Robert D. Miles - Motion Picture Producer "A most

compelling story of one man's quest to complete his mission while trying to protect his moral character and beliefs. John B Leith was an amazing character, skilled soldier, and highly trained writer. In his quest to follow orders and rescue Hitler's most important prisoners, his valor greatly embarrassed the German military and is reported to have shortened the war by weeks. Some of the best-kept secrets of WW II are finally revealed. Well worth the read." Michael E. Forte, Investigator, Researcher
