Identity Break Apr 14 2021 How far would you go to find yourself? Imagine everything you thought you knew about yourself turned out to be a lie, and you didn't know who was telling the truth. Imagine you possessed a secret so dangerous that, if it were exposed, it would reshape the entire world. What would you do if that secret were your very identity? In almost every way, Palo Vista seems like a typical California city, with office buildings, schools, and homes sprawled out across suburbia, filled with families making a life for themselves at the dawn of the new millennium. But two seniors at Mt. MacMurray High are about to find out that nothing is as it seems. Jason Nix is a star athlete and honors student who can't seem to remember anything about his childhood. Elyse Van Auten is a budding artist from a broken home whose father left her mother two years ago - or so she's been led to believe. Like most teens entering adulthood, Elyse and Jason just want to find out who they really are. For them, however, the stakes go far beyond their own personal quest. Join them on a journey of self-discovery that becomes a desperate fight for survival against enemies determined to conceal the truth ... and find out what happens when that fight becomes personal.

[Labyrinth Revisited](#) Jul 06 2020 Minoan Crete is one of the most intensively investigated archaeological cultures in the world, and one that has often captured the public imagination. It is a Bronze Age Aegean society, but it has been intimately connected with the Classical Greek

myth of King Minos and his Labyrinth since Sir Arthur Evans excavated and restored (some would say orebuilt) the important site of Knossos, more than a century ago. Yet many archaeological interpretations of this fascinating culture are still largely traditional in focus and often anachronistic. This collection of papers, challenging and re-examining many conventional and established versions of aeMinoanAe history, is thus long overdue. How have modern preconceptions and socio-political developments shaped archaeological interpretations of aeMinoanAe society? What were the gender roles and attitudes of the inhabitants of Bronze Age Crete? How can data such as the puzzling architecture, the stunning wall-paintings, the elaborate and abundant pots, the landscape and the way it is perceived by humans, help us understand the nature and the negotiations of power and the role of the so-called palaces? These are just some of the questions that this book addresses, considering aeMinoanAe culture from variety of interpretative angles, and situating aeMinoanAe archaeology in the mainstream of archaeological thinking and practice. CONTENTS: What Future for the aeMinoanAe Past? Re-thinking Minoan Archaeology (Yannis Hamilakis); Archaeology as Museology: Re-thinking the Minoan Past (Donald Preziosi); Virtual Discourse: Arthur Evans and the Reconstructions of the Minoan Palace at Knossos (Louise Hitchcock and Paul Koudounaris); Cretan Questions: Politics and Archaeology 1898-1913 (John C McEnroe); Palaces with Faces in Protopalatial Crete: Looking for the People in the First Minoan States (Marianna Nikolaidou); Gender and the Figurative Art of Late Bronze Age Knossos (Benjamin Alberti); Integration and Complexity in the Late Pre-Palatial Period: A View from the Countryside in Eastern Crete (D C Haggis); Landscapes of Memory, Craft and Power in Pre-Palatial and Proto-Palatial Knossos (Peter M Day and David E Wilson); Mind the Gap: Between Pots and Politics in Minoan Studies (Carl Knappett); Pottery as a Barometer of Economic Change: From the Protopalatial to the Neopalatial Society in Central Crete (Aleydis Van de Moortel); Millennial Ambiguities (John Bennet). 248p, many b/w illus (April 2002)

Kasher in the Rye Nov 21 2021 A hopeful and inspiring "act of comedic magic" from comedian—and now memoirist!—Moshe Kasher (Artie Lange, #1 New York Times bestselling author of Too Fat to Fish). Rising young comedian Moshe Kasher is lucky to be alive. He started using drugs when he was just 12. At that point, he had already been in psychoanalysis for 8 years. By the time he was 15, he had been in and out of several mental institutions, drifting from therapy to rehab to arrest to...you get the picture. But Kasher in the Rye is not an "eye opener" to the horrors of addiction. It's a hilarious memoir about the absurdity of it all. When he was a young boy, Kasher's mother took him on a vacation to the West Coast. Well it was more like an abduction. Only not officially. She stole them away from their father and they moved to Oakland, California. That's where the real fun begins, in the war zone of Oakland Public Schools. He was more than just out of control—his mother walked him around on a leash, which he chewed through and ran away. Those early years read like part Augusten Burroughs, part David Sedaris, with a touch of Jim Carrol...but a lot more Jewish. In fact, Kasher later spends time in a Brooklyn Hasidic community. Then came addiction... Brutally honest and laugh-out-loud funny, Kasher's first literary endeavor finds humor in even the most horrifying situations.

Hav Oct 28 2019 A New York Review Books Original Hav is like no place on earth. Rumored to be the site of Troy, captured during the crusades and recaptured by Saladin, visited by Tolstoy, Hitler, Grace Kelly, and Princess Diana, this Mediterranean city-state is home to several architectural marvels and an annual rooftop race that is a feat of athleticism and insanity. As Jan Morris guides us through the corridors and quarters of Hav, we hear the mingling of Italian, Russian, and Arabic in its markets, delight in its famous snow raspberries, and meet the denizens of its casinos and cafés. When Morris published *Last Letters from Hav* in 1985, it was short-listed for the Booker Prize. Here it is joined by *Hav of the Myrmidons*, a sequel that brings the story up-to-date. Twenty-first-century Hav is nearly unrecognizable. Sanitized and monetized, it is ruled by a group of fanatics who have rewritten its history to reflect their own blinkered view of the past. Morris's only novel is dazzlingly sui-generis, part erudite travel memoir, part speculative fiction, part cautionary political tale. It transports the reader to an extraordinary place that never was, but could well be.

The Book of L Oct 21 2021 This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable

to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.
