Corporate Income Tax Law and Practice in the People's Republic of China Sep 29 2019 "Provides a comprehensive analysis of China's corporate income tax law to enable foreign business people, professionals, and students to better understand China's corporate income tax system. A new corporate income tax law came into effect on January 1, 2008. The new law unified the two corporate income tax systems that were applicable to domestic enterprises and foreign enterprises and foreign invested enterprises, respectively. A large portion of this book summarizes the new tax law, the implementation rules of the law, and the interpretation circulars issued by the Chinese tax authorities"--Jacket.

Beautiful China: 70 Years Since 1949 and 70 People's Views on Eco-civilization Construction Dec 01 2019 This book discusses and studies the basic course of ecological civilization construction in the 70 years since the founding of the People's Republic of China and summarizes the experience and lessons. It contains 75 articles from 75 top experts and government officials in the field of ecological civilization policy-making and basic theory research in China, including Xi Jinping Thought on Ecological Civilization, ecological culture, green industry economy, environmental quality, legal system, ecological security and so on, so as to provide reference for understanding and studying the progress of ecological environment protection since the founding of China.

Gold Coins of the World - 9th edition Jun 30 2022 A unique and indispensable reference work Unsurpassed in content and scope When the first edition of *Gold Coins of the World* made its debut in 1958, it forever changed the way gold coins were collected, cataloged, traded, and priced. For the first time, one book provided a reliable guide for a subject which previously required an often expensive investment in multiple volumes of literature, some of it rare and antique, and much of it badly out-of-date. With the publication of this pioneering work, Robert Friedberg (1912-1963) established himself as an international icon in the field of numismatic literature. This book, and the 'Friedberg Numbering System' he developed became then, and is still today, the internationally-recognized standard for systematically identifying any gold coin ever made. From just 384 pages in 1958, *Gold Coins of the World* has expanded to the extent that it now contains more than triple the information of its ancestor. It still stands alone as the first and only book to describe, catalog and price two millennia of gold, platinum, and palladium coin issues from across the globe. From the first coins of the ancient Greeks to the most recently-issued modern commemoratives, they are all here, an astonishing compilation of more than 21,000 individual coin listings accompanied by over 8,000 actual-size photographs. The prices have been completely updated, for the most part raised substantially, to reflect the current market. Entire sections have been expanded, many illustrations have been added or improved, and hundreds of new discoveries and recent issues have been included for the first time. Arthur Friedberg, president of the International Association of Professional Numismatists from 2001 to 2007 and now its Honorary President, and Ira Friedberg, have completely revised and expanded their late father's work. They have had the valuable assistance and cooperation of a who's who of the leading numismatists on every continent in bringing this edition to fruition. For the numismatist, banker, economist, historian, institution of higher learning, or a fancier of the noble metal in all its forms,

Gold Coins of the World is a book for every library, public and private.

Globalization and Its Counter-forces in Southeast Asia Apr 04 2020 This volume is a collection of essays from a diverse group of scholars. Collectively, they present a multidimensional perspective of globalization in Southeast Asia. They delve into the political, economic, security, social, and cultural dimensions of globalization and local responses, offering evidence of complex interfacing between the global and the local, thus championing the need for a multidisciplinary approach to globalization studies. This volume depicts globalization as an uneven and, sometimes, undesired process, and resists the temptation for easy conclusions to the challenges facing the region today.

9-Nov Aug 28 2019 *When Fallon and aspiring novelist Ben meet and fall in love the day before Fallon's cross-country move, they vow to meet on the same date every year, until Fallon suspects Ben is fabricating their relationship to create the perfect plot twist.*
