[Pao](#) Dec 11 2020 SHORTLISTED FOR THE COSTA FIRST NOVEL AWARD I was just a boy when I come to Jamaica. Kingston, 1938. Fourteen-year-old Yang Pao steps off the ship from China with his mother and brother, after his father has died fighting for the revolution. They are to live with Zhang, the 'godfather' of Chinatown, who mesmerises Pao with stories of glorious Chinese socialism on one hand, and the reality of his protection business on the other. When Pao takes over the family's affairs he becomes a powerful man. He sets his sights on marrying well, but when Gloria Campbell, a black prostitute, comes to him for help he is drawn to her beauty and strength. They begin a relationship that continues even after Pao marries Fay Wong, the 'acceptable' but headstrong daughter of a wealthy Chinese merchant. As the political violence escalates in the 1960s the lines between Pao's socialist ideals and private ambitions become blurred. Jamaica is transforming, the tides of change are rising, and the one-time boss of Chinatown finds himself cast adrift. Richly imagined and utterly captivating, *Pao* is a dazzling tale of race, class and colour, love and ambition, and a country at a historical crossroads.

**Wish Lanterns** Jun 24 2019 As read on BBC Radio 4 Book of the Week. This is the generation that will change China. The youth, over 320 million of them in their teens and twenties, more than the population of the USA. Born after Mao, with no memory of Tiananmen, they are destined to transform both their nation and the world. These millennials, offspring of the one-child policy, face fierce competition to succeed. Pressure starts young, and their road isn't easy. Their stories are also like those of young people all over the world: moving out of home, starting a career, falling in love. *Wish Lanterns* follows the lives of six young Chinese. Dahai is a military child and netizen; 'Fred' is a daughter of the Party. Lucifer is an aspiring superstar; Snail a country migrant addicted to online games. Xiaoxiao is a hipster from the freezing north; Mia a rebel from Xinjiang in the far west. Alec Ash, a writer in Beijing of the same generation, has given us a vivid, gripping account of young China as it comes of age. Through individual stories, *Wish Lanterns* shows with empathy and insight the challenges and dreams that will define China's future global impact.

**Being Young, Male and Muslim in Luton** Jan 12 2021 What is it like to be a young Muslim man in the wake of the 2005 London bombings? What impact do political factors have on the multifaceted identities of young Muslim men? Drawn from the author's ethnographic research of British-born Muslim men in the English town of Luton, *Being Young, Muslim and Male in Luton* explores the everyday lives of young men and, focusing on how their identity as Muslims has shaped the way they interact with each other, the local community, and the wider world. Through a study of religious values, the pressures of masculinity, the complexities of family and social life, and attitudes towards work and leisure, Ashraf Hoque argues that young Muslims in Luton are subverting what it means to be "British" by consciously prioritizing and rearticulating their "Muslim identities" in novel and dynamic ways that suit their experiences. Employing rich interviews and extensive participant observation, Hoque paints a detailed picture of young Muslims living in a town consistently associated in the popular media with terrorist activity and as a hotbed for radicalization. He challenges widely held assumptions and gives voice to an emerging generation of Muslims who view Britain as their home and are very much invested in the long-term future of the country and their permanent place within it.

**Structure and Agency in Young People's Lives** Aug 26 2019 *Structure and Agency in Young People's Lives* brings together different takes on the possible combinations of agency and structure in the life course, thus rejecting the notion that young individuals are the single masters of their lives, but also the view that their social destinies are completely out of their hands. 'How did I get here?' This is a question young people have always asked themselves and is often asked by youth researchers. There is no easy and single answer. The lives that are told, on one hand, and their interpretation, on the other, may have the underlying idea of 'own doing' or the idea of 'social determinism' or, more accurately and frequently, a combination of the two. This collection constitutes a comprehensive map on how to make sense of youth's biographies and trajectories, it questions and reshapes the discussion on the role and responsibility of youth studies in the understanding of how people juggle opportunities and constraints, and contributes to escaping the epistemological fallacy of late modernity, in which young people find themselves responsible for collective failures or inevitabilities. It can thus interest students, researchers and professors, youth workers and all of those who work for and with young people.

*Die Young with Me* Jul 18 2021 "Part memoir, part love song, and part tale about overcoming the odds, this is not a cancer story but an account of a teenager's life becoming derailed and the one thing that helped him pull it back together: music. Punk's not dead in rural West Virginia. In this blistering literary debut, it screams from the basement of Rob and Nat Rufus--identical twin brothers with spiked hair, black leather jackets, and the most kick-ass record collection in Appalachia. To them, school (and pretty much everything else) sucks. But what can you expect when you're the only punks in town? When the brothers start their own band, their lives begin to change: they meet friends, attract girls, and get invited to join a national tour and escape their rat-box little town. But their plans are cut short when Rob is diagnosed with a rare form of cancer that has already progressed to an advanced stage. Not only are his dreams of punk rock stardom completely shredded, but there is a very real threat that this is one battle that can't be won. While Rob suffers through nightmarish treatments and debilitating surgery, Nat continues on their band's road to success alone. But as Rob's life diverges from his brother's, he learns to find strength with himself and through his music. *Die Young with Me* is an intimate account of teen angst, the unique bond of identical twins, and music's ability to get us through the darkest of days."--Dust jacket.

**Reading in the Digital Age: Young Children's Experiences with E-books** Aug 31 2022 This edited book focuses on affordances and limitations of e-books for early language and literacy, features and design of e-books for early language and literacy, print versus e-books in early language and literacy development, and uses of and guidelines for how to use e-books in school and home literacy practices. Uniquely, this book includes critical reviews of diverse aspects of e-books (e.g., features) and e-book uses (e.g., independent reading) for early literacy as well as multiple examinations of e-books in home and school contexts using a variety of research methods and/or theoretical frames. The studies of children's engagement with diverse types of e-books in different social contexts provide readers with a contemporary and comprehensive understanding of this topic. Research has demonstrated that ever-increasing numbers of children use digital devices as part of their daily routine. Yet, despite children's frequent use of e-books from an early age, there is a limited understanding regarding how those e-books are actually being used at home and school. As more e-books become available, it is important to examine the educational benefits and limitations of different types of e-books for children. So far, studies on the topic have presented inconsistent findings regarding potential benefits and limitations of e-books for early literacy activities (e.g., independent reading, shared reading). The studies in this book aim to fill such gaps in the literature.

**To Feel the Music** Jun 04 2020 Neil Young took on the music industry so that fans could hear his music—all music—the way it was meant to be heard. Today, most of the music we hear is compressed to a fraction of its original sound, while analog masterpieces are turning to dust in record company vaults. As these recordings disappear, music fans aren't just losing a collection of notes. We're losing spaciousness, breadth of the sound field, and the ability to hear and feel a ping of a triangle or a pluck of a guitar string, each with its own resonance and harmonics that slowly trail off into silence. The result is music that is robbed of its original quality—muddy and flat in sound compared to the rich, warm sound artists hear in the studio. It doesn't have to be this way, but the record and technology companies have incorrectly assumed that most listeners are satisfied with these low-quality tracks. Neil Young is challenging the assault on audio quality—and working to free music lovers from the flat and lifeless status quo. *To Feel the Music* is the true story of his quest to bring high-quality audio back to music lovers—the most important undertaking of his career. It's an unprecedented look inside the successes and setbacks of creating the Pono player, the fights and negotiations with record companies to preserve masterpieces for the future, and Neil's unrelenting determination to make musical art available to everyone. It's a story that shows how much more there is to music than meets the ear. Neil's efforts to bring quality audio to his fans garnered media attention when his Kickstarter campaign for his Pono player—a revolutionary music player that would combine the highest quality possible with the portability, simplicity and affordability modern listeners crave—became the third-most successful Kickstarter campaign in the website's history. It had raised more than \$6M in pledges in 40 days. Encouraged by the enthusiastic response, Neil still had a long road ahead, and his Pono music player would not have the commercial success he'd imagined. But he remained committed to his mission, and faced with the rise of streaming services that used even lower quality audio, he was determined to rise to the challenge. An eye-opening read for all fans of Neil Young and all fans of great music, as well as readers interesting in going behind the scenes of product creation, *To Feel the Music* has an inspiring story at its heart: One determined artist with a groundbreaking vision and the absolute refusal to give up, despite setbacks, naysayers, and skeptics.

**Political Engagement of the Young in Europe** Sep 19 2021 Although many scholars are convinced of the apparent civic disengagement of youth, others suggest that civic participation of young people is stable and increasingly expressed through non-institutionalized forms of practicing politics. This book makes a key contribution to this discussion by asking whether the "decline or shift" paradigm is sufficient in understanding political participation of the youth. It argues that we need to move beyond this framework and develop a renewed reflection on the meaning of "civic and political engagement". It asks crucial questions such as: How can the young be educated into assuming civic and political responsibility? Why and how do young people engage in social and political action? How do the principal mediating institutions (education, media and the family) contribute to new or different forms of youth civic engagement? This text contains contributions from acknowledged specialists such as Constance Flanagan, Mark Elchardus, Marc Hooghe and Bert Klandermands and will be of key interest to students and scholars of youth and young citizens, civic & political involvement, European politics, youth studies, sociology, political participation and electoral behaviour.

**We Were Soldiers Once...and Young** Dec 31 2019 Each year, the Commandant of the U.S. Marine Corps selects one book that he believes is both relevant and timeless for reading by all Marines. The Commandant's choice for 1993 is *We Were Soldiers Once . . . and Young*. In November 1965, some 450 men of the 1st Battalion, 7th Cavalry, under the command of Lt. Col. Hal Moore, were dropped by helicopter into a small clearing in the Ia Drang Valley. They were immediately surrounded by 2,000 North Vietnamese soldiers. Three days later, only two and a half miles away, a sister battalion was chopped to pieces. Together, these actions at the landing zones X-Ray and Albany constituted one of the most savage and significant battles of the Vietnam War. How these men persevered--sacrificed themselves for their comrades and never gave up--makes a vivid portrait of war at its most inspiring and devastating. General Moore and Joseph Galloway, the only journalist on the ground throughout the fighting, have interviewed hundreds of men who fought there, including the North Vietnamese commanders. This devastating account rises above the specific ordeal it chronicles to present a picture of men facing the ultimate challenge, dealing with it in ways they would have found unimaginable only a few hours earlier. It reveals to us, as rarely before, man's most heroic and horrendous endeavor.

**The Money Book for the Young, Fabulous & Broke** Nov 02 2022 The New York Times bestselling financial guide aimed squarely at "Generation Debt"—and their parents—from the country's most trusted and dynamic source on money matters. The *Money Book for the Young, Fabulous & Broke* is financial expert Suze Orman's answer to a generation's cry for help. They're called "Generation Debt" and "Generation Broke" by the media — people in their twenties and thirties who graduate college with a mountain of student loan debt and are stuck with one of the weakest job markets in recent history. The goals of their parents' generation — buy a house, support a family, send kids to college, retire in style — seem absurdly, depressingly out of reach. They live off their credit cards, may or may not have health insurance, and come up so far short at the end of the month that the idea of saving money is a joke. This generation has it tough, without a doubt, but they're also painfully aware of the urgent need to take matters into their own hands. The *Money Book* was written to address the specific financial reality that faces young people today and offers a set of real, not impossible solutions to the problems at hand and the problems ahead. Concisely, pragmatically, and without a whiff of condescension, Suze Orman tells her young, fabulous & broke readers precisely what actions to take and why. Throughout these pages, there are icons that direct readers to a special YF&B domain on Suze's website that offers more specialized information, forms, and interactive tools that further customize the information in the book. Her advice at times bucks conventional wisdom (did she just say use your credit card?) and may even seem counter-intuitive

(pay into a retirement fund even though your credit card debt is killing you?), but it's her honesty, understanding, and uncanny ability to anticipate the needs of her readers that has made her the most trusted financial expert of her day. Over the course of ten chapters that can be consulted methodically, step-by-step or on a strictly need-to-know basis, Suze takes the reader past broke to a secure place where they'll never have to worry about revisiting broke again. And she begins the journey with a bit of overwhelmingly good news (yes, there really is good news): Young people have the greatest asset of all on their side — time.
